INFORMATION FOR AUTHORS

The Journal of Nuclear Medicine will consider original articles in the following areas: basic sciences, in vivo function studies, in vitro studies, radionuclide imaging clinical applications, and the rapid dissemination of results obtained by nuclear techniques. In order to make an article acceptable for publication on the condition that they are contributed exclusively to this journal. Authors alone are responsible for the technical accuracy of their manuscripts. All material submitted should follow the style outlined in the Style Manual for Authors available from the Society of Nuclear Medicine at $1.30.

In addition to regular full-length articles, the Journal will consider manuscripts in the following areas:

Preliminary Notes: supplying information about "works in progress". The text may not exceed 1,200 words. Authors may submit (a) two illustrations, (b) one table, and (c) one illustration. An additional 400 words of text may be submitted if no illustrations or tables are required.

Case Reports: brief clinical notes. More than one patient may be described if there are obvious similarities in the phenomena or reactions described. The requirements for length of a Case Report are the same as those of Preliminary Notes.

Concise Communications: brief, definitive articles of completed research. They must be concise, must describe work that will be published in fuller detail later or be a portion of a study being reported in several short papers. Concise Communications must be submitted without errors and must conform exactly to the instructions for style of manuscripts. If accepted, they will be given more rapid publication than longer articles. Concise Communications must not exceed two double spaced typewritten pages, including text, tables, figures, captions, and references. Each figure with its accompanying caption will be counted as one-half of a manuscript page.

Letters to the Editor: comments on material previously published in the Journal or personal opinions of limited but immediate interest in relation to the "state of the art".

In preparing manuscripts for submission, please note the following:

Manuscripts must be typed double spaced on one side of 81/2 x 11-in. bond paper with at least one inch margin on each side. Each paragraph should be indented. The original with three carbon copies must be provided.

Tables must be typed on separate sheets of bond paper, numbered consecutively with Arabic numerals, and have titles (in caps) centered. Make titles descriptive and provide headings for all columns. Omit vertical lines. Place horizontal lines under title and under column headings.

Illustrations must be submitted in photographic form (glossy prints) or as original ink drawings. Freehand lettering is not acceptable. Two sets of illustrations must be submitted. Labeling should be clear, set in initial caps and lower case. Poor-quality illustrations will be returned to the author to be redrawn because good illustrations are essential for clarity of presentation. Illustrations should be identified by a label pasted on the back (do not write on the back of photographs with pen or pencil). The number, author's name, and an abbreviation for article title. The top of each illustration must be clearly marked. Descriptive legends with sufficient detail to make illustrations understandable without reference to text should be grouped on a separate sheet double spaced. Authors will be charged $10 apiece for every illustration over four.

References must be cited in the text by number (underlined) in parentheses. A consecutive list according to references submitted on a separate page double spaced. Literature references must be cited in the following order: name of author (last name first, then initials with no punctuation, cap and lower case), title of article (initial cap and lower case), name of periodic abbreviation and underlined italic (check List of Journals Indexed in Index Medicus for abbreviation), volume number, colon, first to last page of article, year. Up to three authors will be listed; one or more authors past the third will be designated "et al." Example: Poe ND, Dore EK, Swanson LA, et al: Misinterpretation of lung scans in the diagnosis of pulmonary embolism. J Nucl Med 8: 345-347, 1967. For books, the order is the following: author's last name with initial(s); title of book underlined in caps and lower case. City of publication, publisher, year of publication, page citation. Example: Berne E: Principles of Group Treatment. New York, Macmillan Company, 1966, p. 26. Chapters in books will be treated as journal articles with regard to capitalization.

EDITORIAL COMMUNICATIONS. All editorial correspondence should be sent to the Editor, Frank H. DeLand, M.D., 721 Avalon Park, Lexington, Ky. 40506, (606) 254-1803. Books and manuscripts covering the use of nuclear phenomena in the diagnosis and treatment of disease and allied fields will be accepted for review as space is available. Send copies to the Editor at the address above.

BUSINESS COMMUNICATIONS. Send all correspondence concerning business (advertising, subscriptions, changes of address, etc.) to the publisher, FDH Communications, 475 Park Avenue, South, New York, N.Y. 10016. Phone 212-889-0717. Advertising rates are available from the publisher. Advertising subject to approval by an editorial committee. Forms close on the 15th of the second month preceding date of issue.

February, 1977, Vol. 18, No. 2. Second class postage paid at New York, N.Y., and at additional mailing offices. Subscription rates are $50 per year within the United States; $53 in Canada and Central America; $55 elsewhere (includes air mail postage). Student subscription $25. Single copies $4; foreign $4.50; convention issue (June), $7; foreign $7.50; postage will be added. Subscriptions can be cancelled at any time except annual subscription basis. Remittances should be made payable to Society of Nuclear Medicine, New York, N.Y. 10016. Postmaster: Send Form 3579 to 475 Park Avenue, South, New York, N.Y. 10016.
