ADVANCED MEDICAL KNOWLEDGE

THE COMPLEMENTARY USE OF B-SCAN ULTRASOUND AND RADIONUCLIDE IMAGING TECHNIQUES
Angelita Dingcong Sanders and Roger C. Sanders .............................................................. 205

DIAGNOSTIC NUCLEAR MEDICINE

XENON-127, A COMPARISON WITH XENON-133 FOR VENTILATION STUDIES
G. Coates and C. Nahmiyas ................................................................................................... 221

DETERMINATION OF EXTRACTION FRACTION BY A DOUBLE-TRACER METHOD
Hellmuth Welch, H. William Strauss, Richard D'Agostino, and Bertram Pitt ......................... 226

TECHNETIUM-99m-PYROPHOSPHATE BONE SCANS IN HYPERPARATHYROIDISM
T. Sieghmann, L. Rosenthal, and M. Kaye ............................................................................ 231

TECHNETIUM-99m-Sn-PYROPHOSPHATE PHARMAKO-PEUTICS AND BONE IMAGE
CHANGES IN PARATHYROID DISEASE
G. T. Krishnamurthy, A. S. Brickman, and W. H. Blahd ......................................................... 236

GALLIUM-67 SCANNING IN THE EVALUATION OF THERAPY OF MALIGNANT
TUMORS OF THE HEAD AND NECK
T. Higashi, I. Kashima, K. Shimura, K. Nakamura, S. Sakurai, and F. R. Everhart, Jr. ............ 243

IMAGING EXPERIMENTAL PULMONARY ISCHEMIC LESIONS AFTER INHALATION OF A
DIFFUSIBLE RADIAEROSOL: CONCISE COMMUNICATION
George V. Taplin, Sawantana K. Choppa, and Dennis Elam .................................................... 250

SUITABILITY OF RADIODIAEROSOLS FOR DETERMINING RIGHT-TO-LEFT
SHUNTING: CONCISE COMMUNICATION
Gary F. Gates and Michael L. Goris ....................................................................................... 255

RECTAL PERCHLORATE FOR UNCONSCIOUS PATIENTS PRIOR TO BRAIN
SCINTIGRAPHY WITH PERTECHNETATE: CONCISE COMMUNICATION
David A. Turner, Amjad A. Ali, Magdalene G. Ochart, Arun N. Sukerkar, Ernest W. Fordham,
and Garimella V. S. Rayudu .................................................................................................... 258

EFFECT OF PARTICLE NUMBER ON LUNG PERFUSION IMAGES:
CONCISE COMMUNICATION
Howard J. Dworkin, Robert F. Gutkowski, William Porter, and Murray Potter ......................... 260

HEPATIC ADENOMAS AND FOCAL NODULAR HYPERPLASIA OF THE LIVER IN
YOUNG WOMEN ON ORAL CONTRACEPTIVES: CASE REPORTS

CONGENITAL ABSENCE OF THE LEFT PERICARDIUM DETECTED BY IMAGING OF THE LUNG:
CASE REPORT
Ronald A. D'Altorio and Jesus Y. Cano .................................................................................. 267

INTESTINAL PERFUSION STUDIES USING 133Xe DURING CORRECTION OF
MESENTERIC VASCULAR INSUFFICIENCY: CASE REPORT
M. A. Winston and S. E. Wilson .............................................................................................. 269

AORTIC ANEURYSM DETECTED BY 67Ga PYROPHOSPHATE IMAGING: CASE REPORT
Richard J. Campeau, Stuart Gottlieb, and Nilza Kallos ................................................................ 272

HIGH ECTOPIC KIDNEY PRESENTING AS AN ABNORMAL LIVER-LUNG SCAN:
CASE REPORT
C. R. Strakosch, R. A. Cooper, J. C. Wiseman, and I. B. Hales .......................................... 274

RADIOCHEMISTRY AND RADIOPHARMACEUTICALS

COMPARISON OF RADIOLABELED BLEOMYCINS AND GALLIUM CITRATE IN
TUMOR-BEARING MICE
Kenneth A. Krohn, Jeanne M. Meyers, Gerald L. DeNardo, and Sally J. DeNardo ..................... 276

IN VITRO STABILITY AND IN VIVO CLEARANCE OF FIBRINOGEN OR SERUM
ALBUMIN LABELED WITH "Br, "I, OR "I BY DIRECT OR INDIRECT SYNTHETIC
METHODS
Linda C. Knight, Sylvia S. L. Harwig, and Michael J. Welch .................................................. 282
IN VITRO NUCLEAR MEDICINE

A RADIOIMMUNOASSAY FOR BLEOMYCIN
Michael K. Elson, Martin M. Oken, and Rex B. Shafer 296

SIMULATaneous MEASUREMENT OF TRIIODOThYRONINE AND THYROXINE IN
UNEXTRACTED SERUM SAMPLES USING A DOUBLE-TRACER
RADIOIMMUNOASSAY METHOD
Mary L. Brown, Therian Hannah, David T. Kopp, Gladys Stephens, and Robert F. Carretta 300

PRELIMINARY NOTE

IN VIVO LABELING OF RED BLOOD CELLS WITH 99mTc: A NEW APPROACH TO
BLOOD POOL VISUALIZATION
Dan G. Pavel, A. Michael Zimmer, and Virginia N. Patterson 305

EDITORIAL

99mTc-PYROPHOSPHATE IN DEMONSTRATING BONE DISEASE OF PARATHYROID
DYSFUNCTION
Richard A. Holmes 309

LETTERS TO THE EDITOR

LOCALIZATION OF 99mTc-PHOSPHATE COMPOUNDS IN RENAL TUMORS
R. Sham, A. Sain, L. Silver, W. H. Seery, and A. T. Cole 311

GALLIUM-67 CITRATE CONCENTRATION IN ANGIO-IMMUNOBLASTIC
LYMPHADENOPATHY WITH DYSPROTEINEMIA
Satinder P. Gill, James H. Thrall, Mark L. Beauchamp, and May L. Votaw 312

LOCALIZATION OF 67Ga IN RENAL MICROABSCESSES
Hee-Myung Park, Allen E. Forry, and Ronald L. Sagalowski 313
