INFORMATION FOR AUTHORS

The Journal of Nuclear Medicine will consider original articles in the following areas: basic sciences, in vivo function studies, in vitro studies, radionuclide imaging studies, and therapeutic applications of radionuclides. The category in which an article is submitted must be clear. Articles must be submitted with a brief descriptive title, and a detailed description of the techniques and approach to be used. Manuscripts are accepted at the discretion of the Editor for publication on the condition that they are submitted exclusively to this journal. Authors are responsible for the technical accuracy of their manuscripts. All material submitted should follow the style outlined in the Style Manual for Authors available from the Society of Nuclear Medicine for $1.50.

In addition to regular full-length articles, the Journal will consider manuscripts in the following areas:

Preliminary Notes. Communicating information about "works in progress." The text may not exceed 1,200 words. Authors may submit (a) two illustrations (x) two tables, or (b) one table and one illustration. An additional 400 words of text may be submitted if no illustrations or tables are required.

Case Reports or brief clinical notes. More than one patient may be described if there are obvious similarities in the phenomena or reactions described. The requirements for length of a Case Report are the same as those of Preliminary Notes.

Concise Communications are short, definitive articles of completed research. They must not exceed 1,500 words. Submission must be accompanied by proof that the work will be published in full detail later or be a portion of a study being reported in several short papers. Concise Communications must be submitted without written material and must conform exactly to the instructions for style of manuscripts. If accepted, they will be published more rapidly than other articles. Concise Communications must not exceed ten double spaced typewritten pages including one figure, captions, and references. Each figure with its accompanying caption will be counted as one-half of a manuscript page.

Letters to the Editor are comments on material previously published in the Journal or personal opinions of limited but immediate interest in relation to the "state of the art." Please note the following:

Manuscripts must be typed double spaced on one side of 8½ x 11-in. bond paper with at least 1-in. margin on each side. Each paragraph should be indented. The original with three copies must be provided.

Tables must be typed on separate sheets of bond paper, numbered consecutively with Arabic numerals, and have titles (in caps) centered. Make titles descriptive and include headings for all columns. Omit vertical lines. Place horizontal lines under titles and under column headings.

Illustrations must be submitted in photographic form (glossy prints) or as original India ink drawings. Freehand lettering is not acceptable. Two sets of illustrations must be submitted. Labeling should be clear, set in initial caps and lower case. Poor-quality illustrations will be returned to the author to be redone because good quality is essential for clarity of presentation. Illustrations should be identified by a label placed on the back (do not write on the back of photographs with pen or pencil) indicating number, author's name, and an abbreviated article title. The top of each illustration must be clearly marked. Descriptive legends with sufficient detail to make illustrations understandable without reference to text should be grouped on a separate double spaced page. Authors will be charged $10 apiece for every illustration over four.

References must be cited in the text by number (underlined) in parenthesis in order of appearance. A consecutive list according to reference number must be submitted. Literature references must be cited in the following order: name of author (last name first, then initials with no punctuation), title of article, title of periodical abbreviated and underlined for italic (check List of Journals Indexed in Index Medicus for abbreviations), volume number, colon, first to last page of article, year. Up to three authors will be listed; one or more authors past the third will be designated "et al." Example: Poe ND, Dore JK, Swanson LA, et al: Misinterpretation of lung scans in the diagnosis of pulmonary embolism. J Nucl Med 8: 345-362, 1967. For books, the order is the following: author's last name with initial(s): Title of book underlined in caps and lower case. City of publication, publisher, year of publication, page citation. Example: Berne E: Principles of Group Treatment, New York, Oxford University Press, 1969, p. 26. Chapters in books will be treated as journal articles with regard to capitalization.

EDITORIAL COMMUNICATIONS. All editorial correspondence should be sent to the Editor, FRANK H. DE LAND, M.D., 261 Avalon Park, Lexington, Ky. 40508, (606) 254-1803. Books and manuscripts covering the review of nuclear phenomena in the diagnosis and treatment of disease and allied fields will be reviewed as space is available. Send copies to the Editor at the address above.

BUSINESS COMMUNICATIONS. Send all correspondence concerning business (advertising, subscriptions, change of address, etc.) to the publisher, Society of Nuclear Medicine, 475 Park Avenue South, New York, N.Y. 10016, Phone 212-889-0717. Advertising rates are available from the publisher. Advertising is accepted subject to approval by an editorial committee. Forms close on the 15th of the second month preceding date of issue.

May, 1977, Vol. 18, No. 5. Second class postage paid at New York, N.Y., and at additional mailing offices. Subscription rates are $50 per year within the United States; $52 in Canada and South and Central America; $55 elsewhere (includes air mail postage). Single copies $4; foreign $5.00; convention issue (June), $7; foreign $7.50; postage will be added. Subscriptions on a calendar-year basis. Renewals should be made by check, draft, post office or express mail. Subscriptions should be made payable to Society of Nuclear Medicine. Notice of change of address at least 30 days before date of issue by sending both the old and new address.
