JNM CLASSIFIED PLACEMENT
SERVICE SECTION

This section in the Journal of Nuclear Medicine contains "Positions Open", "Positions Wanted", and "For Sale" listings. Nondisplay "Positions Wanted" ads by members of the Society are billed at 30¢ per word for each insertion with no minimum rate. Nondisplay "Positions Wanted" ads by nonmembers and all nondisplay "Positions Open" and "For Sale" ads by members and nonmembers are charged at 65¢ per word. Display advertisements are accepted at $90 for ¼ page, $125 for ½ page, $210 for ¾ page, and $370 for a full page. Closing date for each issue is the 1st of the month preceding publication. Agency commissions and cash discounts are allowed on display ads only. Box numbers are available for those who wish them.

All classified ads must be prepaid or accompanied by a purchase order. Send orders to:

CURRENT CONCEPTS IN NUCLEAR MEDICINE
SEPTEMBER 15–16, 1977

SEATTLE, WASHINGTON

Division of Nuclear Medicine, University of Washington School of Medicine
Co-Sponsored by the Society of Nuclear Medicine

This course is designed for Practitioners and Residents in Nuclear Medicine, and emphasizes current concepts important to modern clinical nuclear medicine practice. Informal discussions and workshops are featured which provide the student with an opportunity for small group interaction with recognized experts.

Topics Include:

- Comparative Performance of Current Imaging Instruments
- Quality Assurance Programs
- What's New in the Nuclear Pharmacy
- Excerpts from the Thyroid Clinic
- Adrenal Imaging in the Practice of Nuclear Medicine
- Update on Gallium Kinetics & Gallium Imaging
- Diagnostic Problems in Pediatric Medicine
- Bone Images & Your Diagnosis
- Correlating the Diagnostic Process
- Overview of Thrombosis & Thrombotic Disease
- Experience with Indium-labelled Platlets
- Isotope Venography in Conjunction with Lung Imaging
- Perspectives in Adult Polycystic Disease
- Contemporary Concerns of the Cardiologist
- Physiologic & Pharmacologic Basis of Myocardial Imaging
- Clinical Myocardial Imaging with Thallium
- Radionuclide Studies of Left Ventricular Function—Clinical Relevance
- Diagnostic Case Studies

Category I AMA credit given. For further information contact: Office of Continuing Medical Education, E303 Health Sciences (SC-50), University of Washington, Seattle, Wa. 98195 or telephone Course Directors at (206)543-3538.

Course Directors: Steven M. Larson, M.D. & Wil B. Nelp, M.D.
