Executive Director
MARGARET B. GLOS

INFORMATION FOR AUTHORS

The Journal of Nuclear Medicine will consider original articles in the following areas: basic sciences, in vitro function studies, in vivo studies, radiomimetic imaging, clinical studies, and therapeutic applications of radionuclides. The category in which an article is submitted must be marked at the top of each manuscript. Articles that describe definitive and original studies which are completely documented by both references to the literature and description of the techniques used. Articles are accepted for publication on the condition that they are not submitted elsewhere during this process. Authors alone are responsible for the technical accuracy of their manuscripts. All material submitted should follow the style outlined in the Style Manual for Authors available from the Society of Nuclear Medicine for $1.50.

In addition to regular full-length articles, the Journal will consider manuscripts in the following areas:

Preliminary Notes

Concise Communications are short, definitive articles of completed research. They must not describe work that will be published in fuller detail later or be a portion of a study that is reported in several short papers. Concise Communications must be submitted without errors and must conform exactly to the instructions for style of manuscripts. If accepted, they will be given more rapid publication than longer articles. Concise Communications must not exceed ten double-spaced typewritten pages including text, tables, figures, captions, and references. Each figure with its accompanying caption will be counted as one-half of a manuscript page.

Letters to the Editor

Letters to the Editor are comments on material previously published in the Journal or personal opinions of limited but immediate interest in relationship to the "state of the art." In preparing manuscripts for submission, please note the following:

Manuscripts must be typed double spaced on one side of 8½ x 11-in., bond paper with at least 1-in. margin on each side. Each paragraph should be indented. The original with three carbon copies must be provided.

Tables must be typed on separate sheets of bond paper, numbered consecutively with Arabic numerals, and have titles (in caps) centered. Make titles descriptive and provide headings for all columns. Omit vertical lines. Place horizontal lines under titles and under column headings.

Illustrations must be submitted in photographic form (glossy prints) or as original ink drawings. Freestanding letters are not acceptable. Two sets of illustrations must be submitted. Labeling must be clear, set in initial caps and lower case. For each illustration, two sets of illustrations will be returned to the author to be redone because good quality is essential for clarity of presentation. Illustrations should be identified by a label or in the back (do not write on the back of photographs with pen or pencil) indicating number, author's name, and an abbreviated article title. The top of each illustration must be clearly marked. Descriptive legends should be written to make illustrations understandable without reference to text such that they should be grouped on a separate sheet double-spaced. Authors will be charged $10 apiece for every illustration over four.

References must be cited in the text by number (underlined) in parenthesis in order of appearance. A complete list according to reference number must be submitted on a separate page double-spaced. Literature references must be cited in the following order: name of author (last name first, then initials with no punctuation, cap and lower case), title of article (initial cap and lower case), name of periodical abbreviated and underlined for italics (check List of Journals Indexed in Index Medicus for abbreviations), volume number, colons, first to last page of article, year. Up to three authors will be listed; one or more authors past the third will be designated "et al." Examples: PoE ND DORE EK, Swanson LA et al: Misinterpretation of lung scans in the diagnosis of pulmonary embolism. J Nucl Med 8: 343-362, 1967. For books, the order is the following: author's last name with initial (s); title of book underlined in caps and lower case; city of publication, publisher, year of publication, page citation. Example: Berne E: Principles of Group Treatment, New York, Oxford University Press, 1966, p. 26. Chapters in books will be treated as journal articles with regard to capitalization.

EDITORIAL COMMUNICATIONS. All editorial correspondence should be sent to the Editor, FRANK H. DeLAND, M.D., University of Kentucky Medical Center, Medical Annex 25, Lexington, Ky. 40506, (606) 254-1803. Books and monographs covering the use of nuclear phenomena in the diagnosis and treatment of disease and allied fields will be reviewed as space is available. Send copies to the address above.

BUSINESS COMMUNICATIONS. Send all correspondence concerning business (advertising, subscriptions, change of address, etc.) to the publisher, Society of Nuclear Medicine, 475 Park Avenue South, New York, N.Y. (212) 889-0717. Advertising rates are available from the publisher. Advertising is subject to approval by an editorial board. Forms close on the 15th of the second month preceding date of issue.

July, 1977, Vol. 18, No. 7, Second class postage paid at New York, N.Y., and at additional mailing offices. Subscription rates are $25 per year within the United States; $55 in Canada and South America; $55 elsewhere (includes air mail postage). Student subscription $25. Single copies $5; foreign $4.50; postpaid (June), $7, foreign $7.50; postage will be added. Subscriptions on a calendar-year basis. Remittances should be made by check, draft, post office or express money orders payable to Society of Nuclear Medicine. Subscriptions are renewable by Society of Nuclear Medicine. Change of address at least 30 days before date of issue by sending both the old and new address.
