INFORMATION FOR AUTHORS

The Journal of Nuclear Medicine will consider original articles in the following areas: basic sciences, in vivo function studies, in vitro studies, radionuclide imaging clinical studies, and therapeutic applications of radionuclides. The category in which an article is submitted must be marked at the top of each manuscript. Articles must describe new or original works which are completely documented and must refer to the literature and description of the techniques used. Articles are accepted for publication on the condition that they are contributed exclusively to this journal. Authors alone are responsible for the technical accuracy of their manuscripts. All material submitted should follow the style outlined in the Style Manual for Authors available from the Society of Nuclear Medicine for $1.50.

In addition to regular full-length articles, the Journal will consider manuscripts in the following areas:

Preliminary Notes commenting information about "works in progress." The text may not exceed 1,200 words. Authors may submit (a) two illustrations, (b) two tables, and one additional 400 words of text may be submitted if no illustrations or tables are required.

Case Reports or brief clinical notes. More than one patient may be described if there are obvious similarities in the phenomena or reactions described. The requirements for length of a Case Report are the same as those for Preliminary Notes.

Concise Communications are short, definitive articles of completed research. They must describe work that will be published in fuller detail later or be a portion of a study being reported in several short papers. Concise Communications must be submitted without errors and must conform exactly to the instructions for style of manuscripts. If accepted, they will be given more rapid publication than longer articles. Concise Communications must not exceed two double-spaced typewritten pages including text, tables, figures, captions, and references. Each figure with its accompanying tabulation must be counted as one-half of a manuscript page.

Letters to the Editor are comments on material previously published in the Journal or personal opinions of limited but immediate interest in relation to the "state of the art."

In preparing manuscripts for submission, please note the following:

Manuscripts may be typed double spaced on one side of 8 1/2 x 11 in. bond paper with at least 1-inch margin on each side. Each paragraph should be indented. The original with three carbons must be provided.

Tables must be typed on separate sheets of bond paper, numbered consecutively with arched numbers, and have titles (in capital letters) centered. Make the descriptive text and provide headings for all columns. Omit vertical lines. Place horizontal lines under titles and under column headings.

Illustrations must be submitted in photographic form (glossy prints) or as original India ink drawings. Freestanding lettering is not acceptable. Two sets of illustrations must be submitted. Labeling should be clear, set in initial caps and lower case. Poor-quality illustrations will be returned to the author to be redone because good quality is essential for clarity of presentation. Illustrations should be identified by the author in the back (do not write on the back of the photographs with pen or pencil) indicating number, author's name, and an abbreviated article title. Each illustration must be clearly marked. Descriptive legends with sufficient detail to make the illustration understandable without word should be included, typed single spaced, double spaced vertically on a separate sheet double-spaced. Authors will be charged $10 apiece for every illustration over five.

References must be cited in the text by number (underlined) in parenthesis in order of appearance. A consecutive list according to reference number must be submitted on a separate page double-spaced. Literature references must be cited in the following format: name of author (last name first, then initial name first), title (in italics), periodical title (in capital letters), volume number, part number, page number, year. Up to three authors will be cited; one or more authors past the third will be designated "et al." Example: Poe ND, Dok EK, Swanson IA, et al: Misinterpretation of lung scans in the diagnosis of pulmonary embolism. J Nucl Med 8: 345-362, 1967. For books, the order is: author; first name, last name, initial(s); Title of book underlined in caps and lower case. City of publication, publisher, year of publication, page citation. Example: Berne E: Principles of Group Treatment. New York, Oxford University Press, 1966, p. 26. Chapters in books will be treated as journal articles with regard to capitalization.

EDITORIAL COMMUNICATIONS. All editorial correspondence should be sent to the Editor, FRANK H. DELAND, M.D., University of Kentucky Medical Center, Medical Annex 25, Lexington, Ky, 40506, (606) 254-1803. Books and monographs covering the use of nuclear phenomena in the diagnosis and treatment of disease and allied fields will be reviewed as space is available. Send copies to the Editor for review.

BUSINESS COMMUNICATIONS. Send all correspondence concerning business (advertising, subscriptions, change of address, etc.) to the publisher, Society of Nuclear Medicine, 475 Park Avenue South, New York, N.Y. 10016. Phone 212-889-0717. Advertising rates are available from the publisher. Advertising is accepted subject to approval by an editorial committee. Forms close on the 15th of the second month preceding date of issue.

September, 1977, Vol. 18, No. 9. Second class postage paid at New York, N.Y., and at additional mailing offices. Subscription rates are $50 per year within the United States; $52 in Canada and South and Central America; $55 elsewhere (includes air mail postage). Student subscription $25. Single copy $4; foreign $4.50; convention issue (June); $7; foreign $7.50; postage will be added. Subscriptions on a calendar-year basis. Remittances should be made by check, draft, post office or express money order, made payable to Society of Nuclear Medicine. Notify the Society of change of address at least six weeks before the issue date by sending old date and address.
