Please check one box for each of the following statements:

1. This abstract represents:
   - ☐ a scientific paper (oral or poster presentation)
   - ☐ a scientific exhibit (poster, viewbox or free-form display)

2. I am willing to present this paper:
   - ☐ orally only
   - ☐ either orally or by posterboard
   - ☐ by posterboard only
   - ☐ does not apply—this is an exhibit

CHECK only ONE of the following boxes:

CLINICAL SCIENCE/APPLICATIONS:
- ☐ Bone/Joint
- ☐ Cardiovascular - Basic
- ☐ Cardiovascular - Clinical
- ☐ Correlation of Imaging Modalities
- ☐ Endocrine
- ☐ Gastroenterology
- ☐ Hematology
- ☐ Immunology
- ☐ Infectious Disease
- ☐ Neurology
- ☐ Oncology
- ☐ Pediatrics
- ☐ Peripheral Vascular
- ☐ Pulmonary
- ☐ Renal/Electrolyte/Hypertension

☐ COMPUTERS and DATA ANALYSIS

☐ DOSIMETRY/RADIOBIOLOGY

☐ INSTRUMENTATION

☐ RADIOASSAY

☐ RADIOPHARMACEUTICAL CHEMISTRY

NUCLEAR MAGNETIC RESONANCE:
- ☐ Instrumentation
- ☐ Clinical

This abstract should be reviewed by (check one box below):
- ☐ SNM
- ☐ Technologist Section

If this abstract is accepted as a scientific exhibit, we will require (check only one response):
- ☐ a 39" x 59" viewbox
- ☐ a 4" x 8" posterboard
- ☐ a 10' x 10' booth for a free-form display.
Mail the items listed below to:

Society of Nuclear Medicine
ATT: Abstracts
475 Park Avenue South
New York, NY 10016
(212)889-0717

- For scientific papers, original abstract plus nine (9) photocopies of the official abstract form (page 1 only) with supporting data stapled behind each copy.

- For Scientific Exhibits, original abstract plus six (6) photocopies of the official abstract form (page 1 only) with supporting data stapled behind each copy.

- One 4 x 6-inch card containing title, authors, and telephone number of principal author.

- One self-addressed, stamped postcard with title and authors should be enclosed with abstract if receipt is to be acknowledged.

- Two pressure-sensitive labels with principal author's name and address for future mailings.

DO NOT FOLD abstract form; please mail in a large envelope using a cardboard backing. Abstracts received after the deadline will not be accepted.
Policies and Instructions for Abstract Submission

Please read this and the reverse page thoroughly before preparing your abstract. Because of stringent time constraints, abstracts that do not comply with these policies and instructions must be rejected.

GENERAL POLICIES

The 1984 Scientific Program Committee and the Scientific Exhibits Subcommittee welcome the submission of abstracts of original contributions in nuclear medicine from members and nonmembers of the Society of Nuclear Medicine for the 31st Annual Meeting in Los Angeles, CA, June 5-8, 1984.

To help you prepare your abstract, several policies have been formulated, as follows:

1. Publication of accepted abstracts
Abstracts of scientific papers accepted for oral or poster presentation will be published in the May 1983 issue of the Journal of Nuclear Medicine; abstracts of scientific exhibits will appear in a separate brochure that will be available at the meeting to all attendees.

2. Previously published materials
Materials that have been or will be published as a full-length scientific paper prior to the SNM Annual Meeting should not be submitted as an abstract of a scientific paper. However, this rule does not apply to scientific exhibits.

3. Supporting data
Supporting data are mandatory; may consist only of tables, graphs, photos, or similar items; must be typed or mounted on 8½ x 11-inch sheets only; and must not exceed 3 pages. Supporting data should not be a continuation of the abstract text or a reprint of a related publication or lecture. Such manuscript-like material will not be considered in the reviews. One set of supporting data must be stapled to each of the photocopies of the abstract to ensure that each reviewer has all of the information available.

Wording such as “supporting data will be shown” should not be used, since it is assumed that the supporting data submitted with the abstract will accomplish this purpose. Note: Supporting materials cannot be returned.

4. "Works-in-progress"
Abstracts of completed and ongoing ("work-in-progress") projects will be judged and accepted or rejected on their scientific merit.

5. Changes after submission
Abstracts are to be submitted in final format. No changes will be made on the form any time after receipt at the National Office.

6. Editing
On all accepted abstracts, the Scientific Program Committee reserves the right to edit those not submitted in the proper format for publication in the Journal.

7. Multiple contributions on a similar topic
Whenever possible, multiple contributions on the same or a similar subject from the same institution should be merged into a single abstract.

8. Publication of full text
Authors seeking publication for the full text of their papers are strongly encouraged to submit their work to the Journal of Nuclear Medicine for immediate review.

SPECIFIC INSTRUCTIONS

1. Abstract forms
Abstracts must be typed inside the blue rectangle on the first page of this form. Additional forms are available from the Society of Nuclear Medicine, 475 Park Avenue South, New York, NY 10016, telephone (212)889-0717. Photocopies of the abstract form cannot be accepted as originals.

2. Typewriter and ribbon
Use a 12-pitch Courier type element, or a similar element, when typing the abstract. Do not use type that simulates script. Use a carbon ribbon or a slightly used black silk ribbon (brand new ribbons smudge; old ones print too faintly). PRACTICE typing the abstract in a rectangle 5 x 5½ inches before using this form.

3. Erasures and corrections
DO NOT ERASE. Abstracts will be reduced photographically and will be reproduced exactly as submitted. Abstracts with smudges, errors, misspellings, poor hyphenation, skipped lines, typed-in-margins, incorrect abbreviations, too-faint typing, etc. (or not conforming to prescribed rules) require retyping by the publisher at the author’s expense.

4. Format for title and body
USE ALL CAPS for TITLE, following the example given on the last page of this form. Use initials rather than full spelling for authors’ first and middle names. Single space all typing, but leave a space between the title block and the body of the text. Indent each paragraph three spaces. Do not indent title. Draw special symbols in black India ink.

Make title brief, clearly indicating the nature of the investigation. Then state authors’ names and institutional affiliation. Omit degrees, titles, institutional appointments, street address, and zip code.

5. Organization of body of abstract
Organize the body of the abstract as follows:

A statement of the purpose of the study (preferably one sentence).

A statement of the methods used.

A summary of the results presented in sufficient detail to support the conclusions.

A statement of the conclusions reached. It is not satisfactory to state, “The results will be discussed” or “other data will be presented” unless a scientific exhibit is being submitted.

Do not use subtitles, e.g., Methods, Results.
6. **Abbreviations**

Use of standard abbreviations is required. Abbreviations used in the *Journal of Nuclear Medicine* are preferred.

No abstract will be accepted unless the chemical identity of the radiopharmaceutical involved in the study is specified as accurately and completely as possible (for well-established radiopharmaceuticals, standard abbreviations, such as MDP, DTPA, etc., are acceptable). Abstracts in which radiopharmaceuticals are identified only by code numbers will be automatically rejected.

7. **Superscripts and subscripts**

The mass number of an element should follow the elemental abbreviation on the same line and be separated by a hyphen (Tc-99m). DO NOT USE SUPERSSCRIPTS OR SUBSCRIPTS to identify isotopes.

---

**CHECK LIST**

Before mailing, please check your abstracts for the following common errors:

- [ ] Be sure to use a 12-pitch Courier type element or equivalent with a black ribbon.
- [ ] Type title in ALL CAPS followed by a period (see example below).
- [ ] Initials must PRECEDE last name. DO NOT include degrees.
- [ ] Institutional affiliation, city, and abbreviated state are required. Use U.S. Post Office two-letter zip state abbreviations.
- [ ] Be sure that street address, zip code, degrees, and grant support are NOT listed in abstract.
- [ ] Do not begin author’s name or address on a new line. Title, author’s name, institution, city, and abbreviated state should run consecutively.
- [ ] Do not indent title.
- [ ] Leave one space between title block and text of abstract.
- [ ] Begin body of abstract on a new line; indent each paragraph three spaces.
- [ ] Do NOT blacken borders of abstract rectangle.
- [ ] Abstract must stay within rectangular borders.
- [ ] Left-hand border must be perfectly straight.
- [ ] Do NOT squeeze letters on lines.
- [ ] Smudges or faint typing may require retyping of the abstract.
- [ ] There must be no unacceptable abbreviations (see instruction #6).
- [ ] Do NOT use CAPITALS or UNDERLINE for emphasis in text of abstract.
- [ ] Check accuracy of SPELLING and HYPHENATION.
- [ ] Single space. There should be no space between lines of paragraphs in text of abstract.
- [ ] A conclusion should be stated. A hopeful promise of additional data or discussion is not satisfactory unless a scientific exhibit is being submitted.
- [ ] Be certain to designate the category and subject classification for program.
- [ ] Be sure to fill in name and address of principal author.
- [ ] Be sure to fill out two pressure-sensitive labels with principal author’s name and address for future mailings.

**ENCLOSURES**

- [ ] Original abstract form.
- [ ] For scientific papers, nine (9) copies with supporting data (three pages maximum) stapled behind each copy.
- [ ] For scientific exhibits, six (6) copies with supporting data (three pages maximum) stapled behind each copy.
- [ ] Two pressure-sensitive labels with principal author’s name and address.
- [ ] One 4x 6-inch card containing title, authors, and telephone number of principal author.
- [ ] One self-addressed, stamped postcard with title and authors.

**EXAMPLE:**

TECHNETIUM-99m POLYPHOSPHATE BONE IMAGING IN LEGG-PERTHES DISEASE. J.A. Danigelis, R.L. Fisher, and M.B. Ozonoff. Newington Children’s Hospital, Newington, CT.

This investigation was undertaken to compare the diagnostic usefulness of radionuclide bone imaging techniques to standard radiographic...

June 5–8, 1984
Los Angeles, California

Call for Abstracts for Scientific Program

The 1984 Scientific Program Committee solicits the submission of abstracts from members and nonmembers of the Society of Nuclear Medicine for the 31st Annual Meeting in Los Angeles, CA. Abstracts accepted for the program will be published in the May issue of the Journal of Nuclear Medicine. Original contributions on a variety of topics related to nuclear medicine will be considered, including:

INSTRUMENTATION

CLINICAL SCIENCE APPLICATIONS
Bone/Joint
Cardiovascular-Basic
Cardiovascular-Clinical
Correlation of Imaging Modalities
Gastroenterology

COMPUTERS AND DATA ANALYSIS
Hematology

IN VITRO RADIOASSAY
Infectious Disease and Immunology

RADIOPHARMACEUTICAL CHEMISTRY
Neurology

IN VITRO RADIOASSAY
Oncology

IN VITRO RADIOASSAY
Pediatrics

NUCLEAR MAGNETIC RESONANCE
Pulmonary

Abstracts of completed and on-going (“works in progress”) projects will be judged together based on scientific merit.

Authors seeking publication for the full text of their papers are strongly encouraged to submit their work to the JNM for immediate review.

The official abstract form may be obtained from the November issue of the JNM or by calling or writing:

Society of Nuclear Medicine
Attn: Abstracts
475 Park Avenue South
New York, NY 10016
Tel: (212)889-0717

Deadline for receipt of abstracts is Thursday, January 12, 1984.

Announcement of Berson-Yalow Award

The Society of Nuclear Medicine invites abstracts for consideration for the Sixth Annual Berson-Yalow Award. Work will be judged on originality and contribution to the fields of basic or clinical radioassay. The abstract will be presented at the 31st Annual Meeting of the Society of Nuclear Medicine in Los Angeles, CA, June 5–8, 1984, and a suitably engraved plaque will be awarded to the authors by the Education and Research Foundation of the Society of Nuclear Medicine.

The abstract should be submitted on the official abstract form with a letter requesting consideration for the award.

The abstract form may be obtained from the November 1983 issue of the JNM or by calling or writing:

Society of Nuclear Medicine
Attn: Abstracts
475 Park Avenue South
New York, NY 10016
(212)889-0717
Editorial Policy. The Journal of Nuclear Medicine publishes several types of original articles: full length articles, concise communications, preliminary notes, case reports, technical notes, letters to the editor, editorials, and solicited articles of general medical interest. It is understood that manuscripts submitted for consideration are original, including illustrations and tables, and that the material submitted is not under consideration by another publication.

References. References must be typed double space on a separate sheet and numbered consecutively as they appear in the text. References included in a table or illustration are also numbered sequentially with those in the text. The Journal uses the Index Medicus style for references. When more than three authors are listed, the additional authors are listed as “et al.” Journal names are abbreviated according to the List of Journals Indexed in Index Medicus.

Sample references are:

Numbered references to personal communications, unpublished data, manuscripts in preparation, or manuscripts submitted for publication are not acceptable.

Tables. A table is a condensation of related data or facts arranged in columns. Tables should be self-explanatory and should supplement, not duplicate, the text. Each table must be referred to in numerical order in the text. Each table must be typed on a separate sheet of paper, tables should be numbered consecutively with Arabic numerals and have titles centered in capital letters. They are placed after the references in the manuscripts. The titles should be descriptive and as brief as possible. (Explanatory material should be included in footnotes or the text.) Place horizontal lines above the title, under the table, and column headings, and at the end of the table. Omit all vertical rules.

Illustrations. Since imaging is one of the major aspects of nuclear medicine, the selection of high-quality illustrations is of paramount importance. Arrows, lettering, and numbers added to figures must be of professional quality. Original line graphs are preferred for optimal reproduction. Figures of inferior quality or damaged figures as well as those poorly designed or badly lettered will be returned to the author for correction, replacement, or deletion, if indicated. A legend page with descriptive paragraphs for each figure, typed in numerical order with the abbreviation “FIG,” preceding each Arabic number must be included. Every figure should be identified clearly in the text in numerical order. If the manuscript includes illustrations that have been published previously, permission to reproduce them must be obtained by the author from both the original author and from the original publisher and sent to The Journal of Nuclear Medicine. In the submitted manuscript the original publication must be cited in the references, and the following must appear in the figure legend (reprinted by permission of Ref. X).

Nomenclature and Abbreviations. Nomenclature, units, and abbreviations should conform to IUPAC recommendations and Systems Internationale (SI). Chemical formulae follow the recommendations of the American Chemical Society.

Manuscripts should be submitted to: Frank H. DeLand, M.D., Editor, The Journal of Nuclear Medicine, University of Kentucky Medical Center, Medical Annex # 5, Lexington, KY 40506.
