Annual Meeting Abstract Submissions Form

Policies and Instructions for Abstract Submission
Please read this and the reverse page thoroughly before preparing your abstract. Because of stringent
time constraints, abstracts that do not comply with these policies and instructions must be rejected.

GENERAL POLICIES

The 1989 Scientific Program Committee and the Scientific Exhibits Subcommittee welcome the submission of abstracts of original contributions in nuclear medicine from members and nonmembers of the Society of Nuclear Medicine for the 36th Annual Meeting in St. Louis, MO, June 13–16, 1989.

To help you prepare your abstract, several policies have been formulated, as follows:

1. Publication of accepted abstracts
Abstracts accepted for presentation will be published in the convention issue of The Journal of Nuclear Medicine.

2. Previously published materials
Materials that have been or will be published as a full-length scientific paper prior to the SNM Annual Meeting should not be submitted as an abstract of a scientific paper. However, this rule does not apply to scientific exhibits.

3. Supporting data
Supporting data are not required but should be submitted if, in the opinion of the contributor, the reviewer’s understanding will be enhanced. If submitted, supporting data should be limited to one page and must be stapled to each of the photocopies of the abstract to ensure that each reviewer has all of the information available.

Abstracts of completed and ongoing (“work-in-progress”) projects will be judged and accepted or rejected on their scientific merit.

5. Changes after submission
Abstracts are to be submitted in final format. No changes will be made on the form any time after receipt at the Central Office.

6. Editing
On all accepted abstracts, the Scientific Program Committee reserves the right to edit those not submitted in the proper format for publication in the Journal.

7. Multiple contributions on a similar topic
Whenever possible, multiple contributions on the same or a similar subject from the same institution should be merged into a single abstract.

8. Publication of full text
Authors seeking publication for the full text of their papers are strongly encouraged to submit their work to The Journal of Nuclear Medicine for immediate review.

SPECIFIC INSTRUCTIONS

1. Abstract forms
Abstracts must be typed inside the blue rectangle on the third page of this form. Additional forms are available from the Society of Nuclear Medicine, 136 Madison Avenue, New York, NY 10016-6760, telephone (212)889-0717. Photocopies of the abstract form cannot be accepted as originals.

2. Typewriter and ribbon
Use a 12-pitch Courier type element, or a similar element, when typing the abstract. Do not use type that simulates script. Use a carbon ribbon or a slightly used black silk ribbon (brand new ribbons smudge; old ones print too faintly). PRACTICE typing the abstract in a rectangle 4⅛×5⅝ inches before using this form.

3. Erasures and corrections
DO NOT ERASE. Abstracts will be reduced photographically and will be reproduced exactly as submitted. Abstracts with smudges, errors, misspellings, poor hyphenation, skipped lines, typed-in margins, incorrect abbreviations, too-faint typing, etc. (or not conforming to prescribed rules) require retyping by the publisher at the author’s expense.

4. Format for title and body
USE ALL CAPS for TITLE, following the example given on the following page. Use initials rather than full spelling for authors’ first and middle names. Single space all typing, but leave a space between the title block and the body of the text. Indent each paragraph three spaces. Do not indent title. Draw special symbols in black India ink.

Make title brief, clearly indicating the nature of the investigation. Then state authors’ names and institutional affiliation. Omit degrees, titles, institutional appointments, street address, and zip code.

5. Organization of body of abstract
Organize the body of the abstract as follows:

A statement of the purpose of the study (preferably one sentence).

A statement of the methods used.

A summary of the results presented in sufficient detail to support the conclusions.

A statement of the conclusions reached. It is not satisfactory to state, “The results will be discussed” or “other data will be presented” unless a scientific exhibit is being submitted.

Do not use subtitles, e.g., Methods, Results.
6. Abbreviations
Use of standard abbreviations is required. Abbreviations used in the Journal of Nuclear Medicine are preferred.

No abstract will be accepted unless the chemical identity of the radiopharmaceutical involved in the study is specified as accurately and completely as possible (for well-established radiopharmaceuticals, standard abbreviations, such as MDP, DTPA, etc., are acceptable). Abstracts in which radio-

pharmaceuticals are identified only by code numbers will be automatically rejected.

7. Superscripts and subscripts
The mass number of an element should follow the elemental abbreviation on the same line and be separated by a hyphen (Te-99m). DO NOT USE SUPERSCRIPTS OR SUBSCRIPTS to identify isotopes.

CHECK LIST
Before mailing, please check your abstracts for the following common errors:

- Be sure to use a 12-pitch Courier type element or equivalent with a black ribbon.
- Type title in ALL CAPS followed by a period (see example below).
- Initials must PRECEDE last name. DO NOT include degrees.
- Institutional affiliation, city, and abbreviated state are required. Use U.S. Post Office two-letter zip state abbreviations.
- Be sure that street address, zip code, degrees, and grant support are NOT listed in abstract.
- Do not begin author’s name or address on a new line. Title, author’s name, institution, city, and abbreviated state should run consecutively.
- Do not indent title.
- Leave one space between title block and text of abstract.
- Begin body of abstract on a new line; indent each paragraph three spaces.
- Do NOT blacken borders of abstract rectangle.
- Abstract must stay within rectangular borders.
- Left-hand border must be perfectly straight.
- Do NOT squeeze letters on lines.
- Smudges or faint typing may require retyping of the abstract.
- There must be no unacceptable abbreviations (see instruction #6).
- Do NOT use CAPITALS or UNDERLINE for emphasis in text of abstract.
- Check accuracy of SPELLING and HYPHENATION.
- Single space. There should be no space between lines of paragraphs in text of abstract.
- A conclusion should be stated. A hopeful promise of additional data or discussion is not satisfactory unless a scientific exhibit is being submitted.
- Be certain to designate the category and subject classification for program.
- Be sure to fill in name and address of principal author.

ENCLOSURES: PLEASE NOTE IMPORTANT NEW INSTRUCTIONS

- Original abstract form.
- *For scientific papers, fourteen (14) copies (with supporting data, if submitted, stapled behind each copy).
- *For scientific exhibits and works-in-progress, ten (10) copies (with supporting data, if submitted, stapled behind each copy).
- One self-addressed, stamped postcard with title and authors.

IMPORTANT
All abstracts accepted for the program of the Society of Nuclear Medicine Annual Meeting will be printed directly from the typed copy of the abstract form. To ensure printing quality, the instructions must be followed completely for all abstracts. Abstracts that do not conform will be retyped by the publisher at a cost of $40.00 to the author or will not be printed.

TECHNETIUM-99m POLYPHOSPHATE BONE IMAGING IN LEGG-PERTHES DISEASE. J.A. Danigelis, R.L. Fisher, and M.B. Ozonoff. Newington Children’s Hospital, Newington, CT.

This investigation was undertaken to compare the diagnostic usefulness of radionuclide bone imaging techniques to standard radiographic...
Boxes 1-3 must be completed

1
This abstract is intended for
(check one box below):
☐ Technologist program
☐ Technologist student submission
☐ Society program
☐ Cardiovascular Young Investigators Award

2
Please check one box for each of the following statements:
1. This abstract represents:
   ☐ a scientific paper
   ☐ a scientific exhibit (see box 4 next page)
   ☐ a work-in-progress (poster presentation only)
2. I am willing to present this paper:
   ☐ orally only
   ☐ by posterboard only
   ☐ either orally or posterboard
   ☐ does not apply—this is an exhibit or a work-in-progress

3
CHECK only ONE of the following:

CLINICAL SCIENCE/APPLICATIONS:
☐ Bone/Joint
☐ Cardiovascular-Clinical
☐ Cardiovascular-Basic
☐ Endocrine
☐ Gastroenterology
☐ Immunology/Infectious Disease
☐ Neurology
☐ Oncology/Hematology
☐ Pediatrics
☐ Pulmonary
☐ Renal/Electrolyte/Hypertension
☐ COMPUTERS and DATA ANALYSIS
☐ DOSIMETRY/RADIOBIOLOGY
☐ INSTRUMENTATION
☐ NUCLEAR MAGNETIC RESONANCE
☐ RADIOASSAY
☐ RADIOPHARMACEUTICAL CHEMISTRY:
   ☐ General
   ☐ Halogens
   ☐ Positrons
   ☐ Proteins/Antibodies
   ☐ Technetium

List the name, address, & telephone number of the principal author who should receive all correspondence.

Name _______________________________________________________

Division or Dept. _____________________________________________________________________________________________

Street _____________________________________________________________________________________________

City _____________________________ State _______ Zip ______________

Country _____________________________________________________________________________________________

Phone Number (______) __________________________ AREA CODE

Electronically transmitted facsimiles will NOT be accepted

DEADLINES

For Scientific Papers: Abstracts must be received (not postmarked) by Thursday, January 12, 1989.
For Scientific Exhibits: Abstracts must be received (not postmarked) by Thursday, January 19, 1989.
For Works-in-Progress: Abstracts must be received (not postmarked) by Friday, April 7, 1989.

Please note: Acceptance or Rejection letters will be mailed no later than March 20, 1989.

To expedite Acceptance/Rejection notification please supply your FAX #: __________________________
This abstract is a scientific exhibit. If accepted, we will require (check only one response):

- a 39" × 59" viewbox
- a 4' × 8' posterboard
- a 10' × 10' booth for a free-form display.

---

DEFINITIONS

1. Scientific Papers—New Science
   A. Oral Presentation
   B. Poster Presentation
2. Scientific Exhibit—Educational/Informative Booth, Viewbox, or Poster
3. Works-in-Progress—New Science
   Poster only

---

As the PRESENTER of this abstract, on behalf of all of the authors I hereby give permission to the Society of Nuclear Medicine to record my presentation at its 36th Annual Meeting for audiocassette sales during and after the meeting.

Signature of PRESENTER

---

* PLEASE NOTE: IMPORTANT NEW INSTRUCTIONS.

* For scientific papers, original abstract plus fourteen (14) photocopies of the official abstract form.

* For Scientific Exhibits and Works-in-Progress, original abstract plus ten (10) photocopies of the official abstract form (page 1 only).

* One self-addressed, stamped postcard with title and authors should be enclosed with abstract if receipt is to be acknowledged. Note: Overseas or non-U.S. abstracts do not require return postage.

DO NOT FOLD abstract form; please mail in a large envelope using a cardboard backing. Abstracts received after the deadline will not be accepted.

---

Mail the items listed below to:

The Society of Nuclear Medicine
ATT: Abstracts
136 Madison Avenue
New York, NY 10016-6760
(212)889-0717

* Note: Supporting data are encouraged but not required for scientific papers, scientific exhibits, or works-in-progress. If submitted, supporting data must not exceed one standard 8½ ×11-inch page and be stapled to each photocopy.
Information for Authors

EDITORIAL POLICY

The Journal of Nuclear Medicine publishes original articles pertinent to the field of nuclear medicine in the following categories: clinical and basic sciences, case reports, technical notes, special contributions, editorial, letters to the editor, and news items. Submitted manuscripts, including illustrations and tables, must be original works and not have been published previously. Manuscripts must be submitted solely to the Journal and not concurrently under consideration for publication elsewhere.

The Journal of Nuclear Medicine has agreed to receive manuscripts in accordance with the “Uniform Requirements for Manuscripts Submitted to Biomedical Journals,” as cited in the following sources: Ann Intern Med (1982; 96:766–770) and Br Med J (1982; 284:1766–1770). In preparing manuscripts, authors should follow the “Uniform Requirements for Manuscripts Submitted to Biomedical Journals,” and specific author instructions detailed below. Also, helpful guidance in conforming to the “Uniform Requirements” may be found in Medical Style & Format: An International Manual for Authors, Editors, and Publishers by Edward J. Huth, M.D. (Philadelphia: ISI Press; 1987).

MANUSCRIPT SUBMISSION

Manuscripts should be submitted to the Editor: Thomas P. Haynie, M.D., The Journal of Nuclear Medicine, Office of Special Publications-217, The University of Texas M. D. Anderson Hospital and Tumor Institute, 1515 Holcombe Blvd., Houston, Texas 77030; (713) 792-6015. One original and two copies of the manuscript, with three complete sets of unmounted glossy illustrations (no smaller than 3½ x 5 in. or larger than 8 x 10 in.), are required for review. See Manuscript Format (below).

REVIEW PROCEDURE

The review procedure is two-tiered: Submitted manuscripts are reviewed for content on the basis of originality, significance, adequacy of documentation, reader interest, and composition. All manuscripts considered suitable for review are evaluated by a minimum of two reviewers. Manuscripts not submitted according to author instructions will be returned to the author for correction prior to review. Revised manuscripts are submitted to impartial referees for judgment of adequacy of response to suggestions and criticisms made on initial review. All accepted manuscripts are subject to editing for scientific accuracy and clarity by the Editor.

MANUSCRIPT FORMAT

Submit one original and two copies of the manuscript and three sets of unmounted glossy illustrations. Manuscripts must be written in English. Type the manuscript on white bond paper, 8½ x 11 in. (21.6 x 27.9 cm), with margins of at least 1½ in. (4 cm). Type on one side of the paper only, double spacing every page. Do not justify right margins. Begin each of the following sections on separate pages and in the following order: title page, abstract, text, acknowledgments, references, tables (each on a separate page), and legends. Number pages consecutively, beginning with the title page. Type the name of the senior author and page number in the upper right-hand corner of each page. Paragraphs should begin with an indentation of at least five spaces. Handwritten changes are not acceptable.

TITLE PAGE

The title page of the manuscript should include: (1) concise but informative title (to be used as a means by which the study or paper can be readily indexed); (2) short running head or footline of no more than 40 characters (letters and spaces) placed at the bottom of the title page and identified; (3) complete byline, with first name, middle initial, and last name of each author and highest academic degree(s); (4) complete affiliation for each author, with the name of department(s) and institution(s) to which the work should be attributed; (5) disclaimer, if any; (6) name, address, and telephone number of author responsible for correspondence about the manuscript; and (7) name and address of author to whom reprint requests should be directed, or statement that reprints are not available from the author.

ABSTRACT AND KEY WORDS

An abstract of no more than 150 words should state the purpose of the study or investigation, basic procedures (study subjects or experimental animals and observational and analytic methods), major findings (specific data and their statistical significance, if not too lengthy), and the principal conclusions. Emphasize new and important aspects of the study or observations. No abbreviations or reference citations are to be used in the abstract.

TEXT

The text of original scientific and technical articles is usually divided into the following sections: Introduction, Materials and Methods, Results, Discussion, and Summary or Conclusion. Case Reports should contain a concise description of one to three patients, emphasizing the clinical aspects and including methodology, data, and correlative studies. Letters should concern previously published material or matters of general interest and should be brief and to the point. All material is subject to editing and condensation. Other articles, e.g., reviews, position papers, or editorials, should introduce a problem or question, present evidence, and conclude with an answer. The sequence of topics will be determined by the overall subject.

In general, references should not be made in the text to institutions or locales except when germane to that particular article. Generic names should be used throughout the text. Identify instruments and radiopharmaceuticals by manufacturer name and address in parentheses and describe procedures in sufficient detail to allow other investigators to reproduce the results.

ACKNOWLEDGMENTS

Acknowledge persons or agencies contributing substantially to the work, including any grant support.

REFERENCES

References should be cited in consecutive numerical order at first mention in the text and designated by the reference number underlined and in parentheses. References appearing in a table or figure should be numbered sequentially with those in the text. The Reference list must be typed double-spaced and numbered consecutively, as in the text. The Journal follows Index Medicus style for references and abbreviates journal names according to the List of Journals Indexed in Index Medicus. "Unpublished observations' and ‘personal communications' should not be used as references, although written—not verbal —communications may be noted as such in the text. References cited as ‘in press' must have been accepted and not merely in preparation or submitted. The author is responsible for the accuracy of all references and must verify them against the original document.

For journal articles, list all authors when six or less; for seven or more authors, list the first three and et al: Baumer PL, Krohn KA, Carrasquillo JA, et al. Melanoma localization in nude mice with monoclonal Fab against p97. J Nucl Med 1985; 26:1172-1179.

For books and book chapters, follow the examples below:

TABLES

Type each table double-spaced on a separate page. Do not submit tables as photographs.
Tables should be self-explanatory and should supplement, not duplicate, the text. Each table must be cited in consecutive numerical order in the text. Number the tables consecutively with an Arabic number following the word TABLE. The titles should be descriptive, brief, and typed centered in upper- and lower-case letters. Place horizontal rules below the title, column headings, and at the end of the table. Do not use vertical lines. Give each column a short or abbreviated heading. Place explanatory matter in footnotes, not in the heading. Use the following symbols, in this sequence: * ‡ † § ¶ ** Expand in the footnote all nonstandard abbreviations used in each table. For footnotes, identify statistical measures of variations, such as standard deviation and standard error of the mean. If data from another published source are used, obtain written permission from the publisher of the original source and acknowledge fully. If data from an unpublished source are used, obtain permission from the principal investigator and acknowledge fully.

ILLUSTRATIONS

Illustrations should clarify and augment the text. Because imaging is a major aspect of nuclear medicine, the selection of sharp, high-quality halftone illustrations is of paramount importance. Figures of inferior quality will be returned to the author for correction or replacement.

Submit three complete sets of glossy illustrations, no smaller than $3\frac{1}{2} \times 5$ in. or larger than $8 \times 10$ in. Do not send original artwork. Glossy photographs of line drawings rendered professionally on white drawing paper in black India ink, with template or typeset lettering, should be submitted. No hand-drawn or typewritten art will be accepted. High quality computer-generated art may be accepted if it is professional and done and determined, after review, to be of sufficient reproducible quality. Letters, numbers, and symbols (typeset or template) should be clear and of sufficient size to retain legibility after reduction. Do not encumber illustrations unnecessarily; titles and detailed explanations should be incorporated into the legend and not placed on the illustration itself. When necessary for clarity, arrows or letter designations may be affixed to the illustration, but they must be of professional artistic quality; handwritten or typewritten designations are not acceptable. All patient information and institutional identifying data must be removed from illustrations.

Each illustration must be numbered and cited in consecutive order in the text. Illustrations should be identified on a gummed label affixed to the back of each illustration with the following information: figure number, part of figure (if more than one), senior author’s name, and designation of “top.”

Color illustrations will be considered for publication, but the author is responsible for all charges relating to separations and printing. An estimate of these charges will be sent to the author at the time of production. Author approval of charges is required before production will continue. Three complete sets of glossy color photographs (not transparencies) must be submitted for review. Polaroid prints are not acceptable.

All submitted illustrations become the property of The Society of Nuclear Medicine and will not be returned unless the manuscript is rejected.

LEGENDS FOR ILLUSTRATIONS

Type legends double-spaced on a separate page. Each figure should be cited in consecutive numerical order in the text. Number the figures with an Arabic number following the word FIGURE. Use letters to designate parts of illustrations (e.g., A, B, C) and describe each part clearly in the legend. Any letter designations or arrows appearing on the illustration should be identified and described fully.

Original (not previously published) illustrations are preferred for publication in the Journal; however, if illustrations have been published previously, authors are responsible for obtaining written permission from the publisher to reprint. The source of the original material must be cited in the references and the following credit line included in the legend: (Reprinted by permission of Ref. X.) All permission releases must be submitted to the Editor at the time of manuscript submission.

UNITS OF MEASUREMENT

The International System of Units (SI) is standard. Measurements of length, height, weight, and volume should be reported in metric units or their decimal multiples. Other measurements should be reported in the units in which they were made. Alternative units (SI or non-SI units) should be added in parentheses by the author if indicated.

ABBREVIATIONS AND SYMBOLS

Use only standard abbreviations and symbols in the text. Avoid using abbreviations in the title and abstract. At first mention, the complete term, followed by the abbreviation in parentheses, should be used in the text. Standard units of measure should not be expanded at first mention. Consult the following sources for approved abbreviations: CBE Style Manual: A Guide for Authors, Editors, and Publishers in the Biological Sciences, 5th ed. (Bethesda, MD: Council of Biology Editors; 1983), and “Uniform Requirements for Manuscripts Submitted to Biomedical Journals” (Ann Intern Med 1982; 96:766–770).

SUBMISSION OF MANUSCRIPTS

Mail one original and two copies of the manuscript and three complete sets of glossy illustrations in a heavy paper envelope, packed to prevent bending of photographs during mail handling. Manuscripts should be accompanied by a covering letter from the author responsible for correspondence regarding the manuscript. The covering letter should contain the following copyright statement in compliance with the Copyright Revision Act of 1976, effective January 1, 1978.

“Upon acceptance by The Journal of Nuclear Medicine, all copyright ownership for the article [complete title of the article in this space] is transferred to The Society of Nuclear Medicine. On behalf of any and all co-authors, I accept the responsibility for release of any part or all of the material contained within the article noted above. The undersigned stipulates that the material submitted to The Journal of Nuclear Medicine is original and has not been submitted to another publication for concurrent consideration.”

Copyright requirement does not apply to work prepared by United States government employees as part of their official duties. The letter should also contain a statement that the manuscript has been seen and approved by all authors and should give any additional information helpful to the Editor. If there has been prior publication of any part of the work, this should be acknowledged and appropriate written permission included. If color illustrations are included, a statement that the author(s) is (are) willing to assume the cost of color separation and reproduction is requested.

MANUSCRIPT CHECKLIST

_____ Original double-spaced typed manuscript and 2 copies.
_____ Three sets of unmounted glossy Figures (no smaller than $3\frac{1}{2} \times 5$ in. or larger than $8 \times 10$ in.).
_____ Copyright transfer.
_____ Title page with title, authors’ names, and complete affiliations; corresponding author, complete address, and telephone number; author for reprint requests and complete address.
_____ Abstract (maximum, 150 words).
_____ References in consecutive numerical order. Reference list typed double-spaced.
_____ Figures and Tables in consecutive numerical order.
_____ Legends for all Figures; typed double-spaced.
_____ Consent forms for patient photographs.
_____ Written permission from the publisher to reprint previously published Figures and Tables.
