Errata

The first and last names of each author were inadvertently transposed in the letter “CT Attenuation Correction Is Clinically Superior to Supine–Prone MPS,” by Mirzaei et al. (*J Nucl Med.* 2006;47:1732–1733). The names should have been listed as Siroos Mirzaei, Peter Knoll, and Horst Koehn.

The name of an author was incorrect in 2 February articles. In “Imaging δ - and μ -Opioid Receptors by PET in Lung Carcinoma Patients,” by Madar et al. (*J Nucl Med.* 2007;48:207–213), and “¹⁸F-FDG PET/CT in Patients with Suspected Recurrent or Metastatic Well-Differentiated Thyroid Cancer,” by Shammas et al. (*J Nucl Med.* 2007;48:221–226), the second and sixth authors, respectively, should have been listed as “Badreddine Bencherif.”
