UNITED STATES FOOD AND DRUG ADMINISTRATION

## ANNOUNCEMENT AND CALL FOR VIDEOTAPED PROGRAMS

This meeting is being called to present a basic, up-to-date review of the fundamental principles underlying the design, synthesis, quality control, and use of radiopharmaceuticals. This will be covered under 14 different topics, mostly by invited papers authored by well-known scientists in the field. The proceedings will be published by the Society of Nuclear Medicine.

Closed circuit TV programming will be used to augment the regular scientific program. The Committee welcomes submission of 10-minute videotaped programs (1 inch—IVC Format) designed to teach basic principles or to present new scientific data. The tapes will become the property of the Society of Nuclear Medicine. Selected tapes will be placed in a central library where copies of the tapes would be made available on request. Videotapes which advertise a commercial product should also be of scientific or educational value. (Commercial programs will be shown for a fee of \$50 per 10 minutes.)

Deadline for receiving videotapes is January 1, 1974.

Send videotaped programs to:

Dr. Buck A. Rhodes  
Division of Nuclear Medicine  
The Johns Hopkins Medical Institutions  
615 North Wolfe Street  
Baltimore, Maryland 21205
