INFORMATION FOR AUTHORS

The Journal of Nuclear Medicine will consider original articles in the following areas: basic sciences, in vitro studies, radiolabeled imaging, clinical studies, and therapeutic applications of radionuclides. The category in which an article is submitted must be marked at the top of each manuscript. Articles must describe the design or results of original studies which are completely different from both past and previous work. Authors alone are responsible for the technical accuracy of their manuscripts. All material submitted should follow the style outlined in the Style Manual for Authors available from the Society of Nuclear Medicine for $1.50.

In addition to regular full-length articles, the Journal will consider manuscripts in the following areas:

Preliminary Notes communicating information about "works in progress." The text may not exceed 1,200 words. Authors may submit (a) two illustrations, (b) two tables, or (c) one table and one illustration. An additional 400 words of text may be submitted if no illustrations or tables are required.

Case Reports or brief clinical notes. More than one patient may be described if this is feasible or if multiple similarities in the phenomena or reactions described. The requirements for length of a Case Report are the same as those of Preliminary Notes.

Concise Communications are short, definitive articles of completed research. They must not describe work that will be published in fuller detail later or be a portion of a study being reported in several short papers. Concise Communications must be submitted without errors and must conform exactly to the instructions for style of manuscripts. If accepted, they will be given more rapid publication and will be longer articles. Concise Communications must not exceed ten double spaced typewritten pages including text, tables, figures, captions, and references. Each figure with its accompanying descriptive text must be counted as one-half page. Manuscripts exceeding the page limit cannot be considered.

Letters to the Editors are comments on material previously published in the Journal or personal opinions of limited but immediate interest in relation to the "state of the art."

In preparing manuscripts for submission, please note the following:

Manuscripts must be typed double spaced on one side of 8 1/2 x 11-in. bond paper with at least 1-in. margin on each side. The original with three carbons must be provided.

Tables must be typed on separate sheets of bond paper, numbered consecutively with arabic numerals, and have titles (in caps) centered. Make titles descriptive and provide headings for all columns. Omit vertical lines. Place horizontal lines under title and under column headings.

Illustrations must be submitted in photographic form (8 x 10-in. glossy prints) or as original india ink drawings. Freehand lettering is not acceptable. Two sets of illustrations must be submitted. Labeling should be clear, set in initial caps and lower case. Poor-quality illustrations will be returned to the author to be redone because good quality is essential for clarity of presentation. Photographs should be mounted on white cardboard; illustrations should be identified by a label posted on the back (do not write on the back of photographs with pen or pencil). Indicate number, author's name, and an abbreviated article title. The top of each illustration must be clearly marked. Descriptive legends with sufficient detail to make illustrations understandable without reference to text should be grouped on a separate sheet double spaced. Authors will be charged $10 apiece for every illustration over four.

References must be cited in the text by number (underlined) in parentheses in order of appearance. A consecutive list according to reference number must be submitted on a separate page double spaced. Literature references must be cited in the following order: name of author (last name, initial, then initials with no period), title of article (initial cap and lower case), name of periodical abbreviated underlined for its abbreviated periodical name in Index Medicus (in parentheses). Examples: (1) List of Journals Indexed in Index Medicus for abbreviation, volume number, colon, first to last page of article, year. Up to three authors will be listed; one or more authors past the third will be designated "et al." For example: Pellegrino, D. E., Schnitzer, M. J., and Sheps, S. C.: N Engl J Med 293: 1863-1867. For articles, the order is: the author's last name with initial(s); Title of book underlined in caps and lower case. City of publication, publisher, year of publication, page citation. Example: Berne, E.: Principles of Cardiac Function: New York, McGraw-Hill, 1972, p. 26.

Editorial Communications. All editorial correspondence should be sent to the Editor, Frank H. Deland, M.D., 721 Avalon Park, Lexington, Ky. 40508. Books and manuscripts covering the use of nuclear medicine in the diagnosis and treatment of disease and allied fields will be reviewed as space is available. Send copies to the Editor at the address above.

Business Communications. Send all correspondence concerning business (advertising, subscriptions, change of address, etc.) to the publisher, Society of Nuclear Medicine, 475 Park Avenue South, New York, N.Y. 10016; Phone 212-899-0717; Advertisements: 212-899-0717. Advertising rates are available from the publisher. Advertising is accepted subject to approval by an editorial committee. Forms close on the 15th of the second month preceding date of issue.

October, 1975. Vol. 16, No. 10. Second class postage paid at New York, N.Y., and at additional mailing offices. Subscription rates are $40 per year within the United States; $42 in Canada and South and Central America; $45 elsewhere (includes air mail postage). Student subscription rate $20. Single copies 50%; foreign $4.50; institutional subscription 50%. All subscriptions are payable in U.S. funds. No cancellations will be allowed. Subscriptions on a calendar-year basis. Remittances should be made by check, draft, post office or express money order, made payable to the Society of Nuclear Medicine. Change of address at least 30 days before date of issue by sending both the old and new address.
