INFORMATION FOR AUTHORS

The Journal of Nuclear Medicine will consider original articles in the following areas: basic sciences, nuclear medicine, positron emission tomography, clinical studies, and therapeutic applications of radionuclides. The category in which an article will be placed must be marked at the time of submission. Articles at the top of each category must describe definitive and original studies which are completely documented by both references to the literature and description of the techniques used. Articles are accepted for consideration on the condition that they are not submitted elsewhere. Authors alone are responsible for the technical accuracy of their manuscripts. All material submitted should follow the style outlined in the Style Manual for Authors available from the Society of Nuclear Medicine for $1.50.

In addition to regular full-length articles, the Journal will consider manuscripts in the following areas:

- Preliminary Notes communicating information about "works in progress". The text may not exceed 1,200 words. Authors may submit: (a) two illustrations, (b) two tables, or (c) one table and one illustration. An additional 400 words of text may be submitted if no illustrations or tables are required.
- Case Reports or brief clinical notes. More than one patient may be described if there are obvious similarities in the phenomena or reactions described. The requirements for length of a Case Report are the same as those of Preliminary Notes.
- Concise Communications are short, definitive articles of completed research. They must be no longer than 1,500 words (not including references) and one figure or illustration. Each figure with its accompanying caption will be counted as one-half of a manuscript page.

Letters to the Editor are comments on material previously published in the Journal or personal opinions of limited but immediate interest in relation to the state of the art.

In preparing manuscripts for submission, please note the following:

- Manuscripts must be typed double spaced on one side of 8½ x 11-in. bond paper with at least 1-in. margin on each side. The original with three carbons must be provided.
- Tables must be typed on separate sheets of bond paper, numbered consecutively with Arabic numerals, and have titles (in caps) centered. Make titles descriptive and provide headings for all columns. Omit vertical lines. Place horizontal lines under title and under column headings.
- Illustrations must be submitted in photographic form (8 x 10-in., glossy prints) or as original ink drawings. Freehand lettering is not acceptable. Two sets of illustrations should be submitted. Labeling should be clear, set in initial caps and lower case. Poor-quality illustrations will be returned to the author to be redone because good quality is essential for clarity of presentation. Photographs should be mounted on white cardboard. Illustrations should be identified by a label pasted on the back (do not write on the back of photographs with pen or pencil) indicating number, author's name, and an abbreviated article title. The top of each illustration must be clearly marked. Descriptive legends with sufficient detail to make illustrations understandable without reference to text should be grouped on a separate sheet double spaced. Authors will be charged $10 apiece for every illustration over four.

References must be cited in the text by number (underlined) in parenthesis in order of appearance. A consecutive list according to reference number must be submitted on a separate page double spaced. Literature relevant to a topic is cited in the following order: name of author (last name first, then initials with no punctuation), article (in caps), title of article (initial cap and lower case), and year of publication. The first entry is considered the "et al." Example: Poe ND, Dore EK, Swanston LA, et al: Misinterpretation of lung scans in the diagnosis of pulmonary embolism. J Nucl Med 8: 345-342, 1967. For books, the order is the following: author's last name with initial(s), title of book underlined in caps and lower case, city of publication, publisher, year of publication, etc.). Example: Berne E: Principles of Group Treatment. New York, Oxford University Press, 1966, p. 26. Chapters in books will be treated as journal articles with regard to capitalization.

EDITORIAL COMMUNICATIONS. All editorial correspondence should be sent to the Editor, Frank H. DeLand, M.D., 721 Avalon Park, Lexington, Ky. 40508, (606) 254-1803. Books and monographs that describe major therapeutic applications of nuclear phenomena in the diagnosis and treatment of disease and allied fields will be reviewed as space is available. Send copies to the Editor at the address above.

BUSINESS COMMUNICATIONS. Send all correspondence concerning business (advertising, subscriptions, change of address, etc.) to the publisher, Society of Nuclear Medicine, 475 Park Avenue South, New York, N.Y. 10016, Phone 212-899-0717. Advertising rates are available from the publisher. Advertising is accepted subject to approval by an editorial committee. Forms close on the 15th of the second month preceding date of issue.

May, 1975, Vol. 16, No. 5. Second class postage paid at New York, N.Y., and at additional mailing offices of the United States Post Office: enter desk in Canada, Mexico, Central America, and South and Central America: $45 elsewhere (includes air mail postage). Student subscription $20. Single copies $4; foreign $4.50; convention issue June: $7; foreign $7.50; postage will be added. Remittances should be made payable to Society of Nuclear Medicine. Notify the Society of change of address at least 30 days before date of issue by sending both the old and new address.
