INFORMATION FOR AUTHORS

The Journal of Nuclear Medicine will consider original articles in the following areas: basic sciences, in vivo function studies, radionuclide studies, diagnostic and therapeutic applications of radionuclides. The category in which an article is submitted must be marked at the top of each manuscript. Articles at the top of each manuscript must describe definitive or original studies which are completely documented by both references to the literature and description of the techniques used. Articles are accepted for publication on the condition that they have not been previously published in any other journal. Authors alone are responsible for the technical accuracy of their manuscripts. All material submitted must follow the style outlined in the Style Manual for Authors available from the Society of Nuclear Medicine for $1.50.

In addition to regular full-length articles, the Journal will consider manuscripts in the following areas:

Preliminary Notes communicating information about "works in progress." The text may not exceed 1,200 words. Authors may submit (a) two illustrations, (b) two tables, or (c) one table and one illustration. An additional 400 words of text may be submitted if no illustrations or tables are required.

Case Reports or brief clinical notes. More than one patient may be described if there are obvious similarities in the phenomena or reactions described. The requirements for length of a Case Report are the same as those of Preliminary Notes.

Concise Communications are short, definitive articles of completed research. They must not describe work that will be published in fuller detail or be a portion of a study being reported in several short papers. Concise Communications must be submitted without errors and must conform exactly to the instructions for style of manuscripts. If accepted, they will be given more rapid publication than longer articles. Concise Communications must not exceed ten double spaced typewritten pages including text, tables, figures, captions, and references. Each figure with its accompanying caption will be counted as one-half of a manuscript page.

Letters to the Editor are comments on material previously published in the Journal or personal opinions of limited but immediate interest in relation to the "state of the art." Letters should be concise (maximum 500 words) and should highlight the important points. The letter should be signed by all authors and will not be considered if the authors have been invited to submit a manuscript for publication in the Journal.

In preparing manuscripts for submission, please note the following:

Manuscripts must be typed double spaced on one side of 8½ x 11-in. bond paper with at least 1-in. margin on each side. The original with three carbons must be provided.

Tables must be typed on separate sheets of bond paper, numbered consecutively with Arabic numerals, and have titles (in caps) centered. Make titles descriptive and provide headings for all columns. Omit vertical lines. Place horizontal lines under title and under column headings.

Illustrations must be submitted in photographic form (8 x 10-in. glossy prints) or as original india ink drawings. Freehand lettering is not acceptable. Two sets of illustrations must be submitted. Labeling should be clear, set in initial caps and lower case. Poor-quality illustrations will be returned to the author to be redone because good quality is essential for clarity of presentation. Photographs should be mounted on cardboard. Illustrations should be identified by a label pasted on the back (do not write on the back of photographs with pen or pencil) indicating number, author’s name, and an abbreviated title of illustrated article. The title of the illustration must be clearly marked. Descriptive legends with sufficient detail to make illustrations understandable without reference to text should be grouped on a separate sheet double spaced. Authors will be charged $10 extra for every illustration over 10. Authors will be charged $10 extra for every illustration over 10.

References must be cited in the text by number (underlined) in parenthesis in order of appearance. A consecutive list according to reference number must be submitted on a separate page double spaced. Literature references must be cited after the following order: name of author (last name first, then initials with no punctuation, cap and lower case), title of article (initial cap and lower case), name of periodical, volume, and number of pages. Please indicate citation when discussing the same reference in the text. In addition to the above, the following should be included: the date of publication; page numbers of articles cited in the text; volume, issue, and page numbers of all other references. Each reference should be typed on a separate page double spaced, typed on one side of 8½ x 11-in. bond paper.

EDITORIAL COMMUNICATIONS. All editorial correspondence should be sent to the Editor, Frank H. DeLand, M.D., 721 Avalon Park, Lexington, Ky. 40508, (606) 254-1803. Books and monographs covering the use of nuclear phenomena in the diagnosis and treatment of disease and allied fields will be reviewed as space is available. Send copies to the Editor at the address above.

BUSINESS COMMUNICATIONS. Send all correspondence concerning business (advertising, subscriptions, change of address, etc.) to the publisher, Society of Nuclear Medicine, 475 Park Avenue South, New York, N.Y. 10016, Phone 212-889-0717. Advertising rates are available from the publisher. Advertising is accepted subject to approval by an editorial committee. Forms close on the 15th of the second month preceding date of issue.
