THE FIFTH ANNUAL WINTER MEETING
OF THE SNM TECHNOLOGIST SECTION

February 2-4, 1978
Sheraton Towers Hotel
Orlando, Florida

CALL FOR EXHIBITS: SCIENTIFIC PROGRAM

The Scientific Program Committee invites the submission of abstracts of exhibits for the Fifth Annual Winter Meeting of the Society of Nuclear Medicine, Technologist Section. Applications are welcomed from all technologists. The Committee also welcomes exhibits that complement presented papers for the Scientific Program.

All exhibits will be illuminated by available room light. There will be no provisions for trans-illumination, e.g., viewboxes. The exhibit should be mounted on poster board not exceeding 30 x 30 in. No more than two boards may be entered for a subject. Exhibits should be clearly titled. Submit the following information with your application: exhibitor's name and affiliation, title of exhibit (ten words maximum), abstract (100 words), and dimensions (the maximum of two boards not exceeding 30 x 30 in.).

An award will be presented to the most outstanding exhibit based on scientific merit, originality, display format, and appearance.

For additional information contact: Christie F. Burkhead, Dept. of Nuclear Medicine, Fourth Floor, O. B. Hunter Memorial Laboratory, 1815 Eye St., NW, Washington, DC 20006; or Jane Christie, Div. of Nuclear Medicine, University of Kansas Medical Center, 39th and Rainbow, Kansas City, KS 66103.

DEADLINE: January 1, 1978

TECHNOLOGIST SECTION
SOCIETY OF NUCLEAR MEDICINE
FIFTH ANNUAL WINTER MEETING

Feb. 2-4, 1978
Sheraton Towers Hotel
Orlando, Florida

The Technologist Section Winter Meeting will be held Feb. 2-4, 1978, at the Sheraton Towers Hotel in Orlando, Florida. The meeting, which will last for two and one-half days, will feature in-depth, simultaneous sessions on cardiovascular nuclear medicine, camera imaging including a workshop (registration limited), current clinical nuclear medicine techniques, education, management, and psychology, radioassay, and scientific papers and exhibits.

A new lecture-workshop format is planned for all day Saturday to present and discuss all aspects of RIA method evaluation. Included in this presentation will be protocol perusal, methods to study accuracy precision, reaction variables, pipet assurance, and normal range estimation.

Continuing education credits through the VOICE program will be available for all sessions. Registration information and meeting programs are available from the Society of Nuclear Medicine, 475 Park Avenue South, New York, NY 10016.

1977 SUBJECT INDEX

Asterisk indicates abstract

Abdomen
- aortic aneurysm detection, 1230
- intraperitoneal fluid evaluation, ultrasound, 505*
- mass, ultrasound, radionuclide diagnosis, in children, 1052*
- peritoneovenous shunt function, 1230
- peritonitis, 1230
- spleen, book review, 950

Abscess
- abdominal, 1230

Adrenal glands
- adenoma, subcellular uptake of 198, iodochloro-1, 6-iodomethylcholesterol, in rats, 600*
- "P-fluoroprogesterone, preparation, distribution, in rats, 618*
- "I-iodomethylcholesterol, preparation, distribution, in animals, 600*
- "I-bretylium analogs, medullary uptake, in animals, 87*
- "I-iodochloro-cholesterol, 1-iodomethylcholesterol, in rats, 724*
- imaging, 1230
- "I-iodochloro-cholesterol, 599*: low renin "essential" hypertension, 599*

19-iodochloro-cholesterol, 6-iodomethylcholesterol, purity, 492, 493, 494
- metastatic disease, ultrasound, 862*
- "I-noriso-propylletracholanol, distribution, in rats, 600*
- uptake, background subtraction program, 925

Aerosol
- "I-Tc, dry, 1082
- "I-Tc, lung ventilation, asthma therapy, 606*
- "I-phytate, irradiation effect on lung function, in dogs, 625*
- "I-S, lung deposition, in dogs, 606*

Albumin
- see also: Chromium-51; Gallium-68; Indium-111; Indium-113m; Iodine-125; Iodine-131; Technetium-99m, albumin
