## Erratum

In the article entitled, "Tc-99m Galactosyl-Meoglycoalbumin: In Vitro Characterization of Receptor-Mediated Binding," Vol. 25, July 1984, pp. 779-787, please note the following corrections.

Page 779, right column, line 11 should read:

After screening several labeled muscarine derivatives, he selected 3-quinuclidinyl-4-iodo-benzilate (4-iodo QNB). . .

Page 780, right column, line 12, value should read: (280 nm,  $a_m = 4.0 \times 10^4 M^{-1} \text{ cm}^{-1}$ ).

Page 780, under **In vivo simulations**, fifth line, word is "Simulation" not "Stimulation."

Page 785, under **Specificity: molecular**, left column, last paragraph, reference in line 5 should be (26), line eight should be (43).

Page 785, right column, last line, reference is (45).

Page 785, please delete last paragraph in Acknowledgments.

Heading Table 2 should read: Galactose  
density  
(moles/mole)
