

Boxes 1-4 must be completed

— 1 —

This abstract is intended for (check one box below):

- the Technologist program
- the Society program

— 2 —

Please check one box for each of the following statements:

1. This abstract represents:
  - a scientific paper (oral or poster presentation)
  - a scientific exhibit (poster, viewbox or free-form display)
  - a work-in-progress (poster presentation only)
2. I am willing to present this paper:
  - orally only
  - either orally or by posterboard
  - by posterboard only
  - does not apply—this is an exhibit or a work-in-progress

— 3 —

This abstract is a scientific exhibit. If accepted, we will require (check only one response):

- a 39" x 59" viewbox
- a 4' x 8' posterboard
- a 10' x 10' booth for a free-form display.
- This is not a scientific exhibit.

— 4 —

CHECK only ONE of the following boxes:

**CLINICAL SCIENCE/ APPLICATIONS:**

- Bone/Joint
- Cardiovascular
- Endocrine
- Gastroenterology
- Hematology
- Immunology
- Infectious Disease
- Neurology
- Oncology
- Pediatrics
- Peripheral Vascular
- Pulmonary
- Renal/Electrolyte/Hypertension

# 1986 Abstract Form for Scientific Papers, Scientific Exhibits and Works-in-Progress

Society of Nuclear Medicine 33rd Annual Meeting  
Washington, D.C. Convention Center  
Sunday, June 22 - Wednesday, June 25, 1986

11049

*Do Not Fold Or Bend This Form/Abstracts Will Be Published As Typed*

TYPE ABSTRACT HERE: (BE SURE TO STAY WITHIN BORDER)

TYPE FULL NAME OF AUTHOR  
PRESENTING PAPER

List the name, address, and telephone number of the principal author who should receive all correspondence.

Name \_\_\_\_\_

Institution \_\_\_\_\_

Division or Dept. \_\_\_\_\_

Street \_\_\_\_\_

City \_\_\_\_\_ State \_\_\_\_\_ Zip \_\_\_\_\_

Phone Number (\_\_\_\_\_) \_\_\_\_\_  
AREA CODE

### DEADLINES

**For Scientific Papers:** Abstracts must be received (not postmarked) by Thursday, January 23, 1986.  
**For Scientific Exhibits:** Abstracts must be received (not postmarked) by Thursday, February 20, 1986.  
**For Works-in-Progress:** Abstracts must be received (not postmarked) by Thursday, April 10, 1986.

Mail the items listed below to:

Society of Nuclear Medicine  
ATT: Abstracts  
136 Madison Avenue  
New York, NY 10016  
(212)889-0717

**Note:** Supporting data are **not required** for scientific papers, scientific exhibits, or works-in-progress. If submitted, supporting data must not exceed one standard 8½ × 11-inch page.

- **For scientific papers**, original abstract plus nine (9) photocopies of the official abstract form (page 1 only).
  - **For Scientific Exhibits and Works-in-Progress**, original abstract plus six (6) photocopies of the official abstract form (page 1 only).
  - **One 4 x 6-inch card** containing title, authors, and telephone number of principal author.
  - **One self-addressed, stamped postcard** with title and authors should be enclosed with abstract if receipt is to be acknowledged.
  - **Two pressure-sensitive labels** with principal author's name and address for future mailings.
- DO NOT FOLD abstract form; please mail in a large envelope using a cardboard backing. Abstracts received after the deadline will not be accepted.

# Policies and Instructions for Abstract Submission

*Please read this and the reverse page thoroughly before preparing your abstract. Because of stringent time constraints, abstracts that do not comply with these policies and instructions must be rejected.*

## GENERAL POLICIES

The 1986 Scientific Program Committee and the Scientific Exhibits Subcommittee welcome the submission of abstracts of original contributions in nuclear medicine from members and nonmembers of the Society of Nuclear Medicine for the 33rd Annual Meeting in Washington, DC, June 22-25, 1986.

To help you prepare your abstract, several policies have been formulated, as follows:

### 1. *Publication of accepted abstracts*

Abstracts of **scientific papers** accepted for oral or poster presentation will be published in the convention issue of the *Journal of Nuclear Medicine*; abstracts of **scientific exhibits** and **works-in-progress** will appear in a separate brochure that will be available at the meeting to all attendees.

### 2. *Previously published materials*

Materials that have been or will be published as a full-length scientific paper prior to the SNM Annual Meeting should not be submitted as an abstract of a scientific paper. However, this rule does not apply to scientific exhibits.

### 3. *Supporting data*

Supporting data may be submitted if, in the opinion of the contributor, the reader's understanding will be enhanced. Supporting data are not required, however, and must be limited to one page. If submitted, supporting data must be stapled to each of the photocopies of the abstract to ensure that each reviewer has all of the information available.

### 4. *"Works-in-progress"*

Abstracts of completed and ongoing ("work-in-progress") projects will be judged and accepted or rejected on their scientific merit.

### 5. *Changes after submission*

Abstracts are to be submitted in final format. No changes will be made on the form any time after receipt at the Central Office.

### 6. *Editing*

On all accepted abstracts, the Scientific Program Committee reserves the right to edit those not submitted in the proper format for publication in the *Journal*.

### 7. *Multiple contributions on a similar topic*

Whenever possible, multiple contributions on the same or a similar subject from the same institution should be merged into a single abstract.

### 8. *Publication of full text*

Authors seeking publication for the full text of their papers are strongly encouraged to submit their work to the *Journal of Nuclear Medicine* for immediate review.

## SPECIFIC INSTRUCTIONS

### 1. *Abstract forms*

Abstracts must be typed inside the blue rectangle on the first page of this form. Additional forms are available from the Society of Nuclear Medicine, 136 Madison Avenue, New York, NY 10016, telephone (212)889-0717. Photocopies of the abstract form cannot be accepted as originals.

### 2. *Typewriter and ribbon*

Use a 12-pitch Courier type element, or a similar element, when typing the abstract. Do not use type that simulates script. Use a carbon ribbon or a slightly used black silk ribbon (brand new ribbons smudge; old ones print too faintly). **PRACTICE** typing the abstract in a rectangle 5 x 5 $\frac{1}{8}$  inches before using this form.

### 3. *Erasures and corrections*

**DO NOT ERASE.** Abstracts will be reduced photographically and will be reproduced exactly as submitted. Abstracts with smudges, errors, misspellings, poor hyphenation, skipped lines, typed-in-margins, incorrect abbreviations, too-faint typing, etc. (or not conforming to prescribed rules) require retyping by the publisher at the author's expense.

### 4. *Format for title and body*

**USE ALL CAPS** for TITLE, following the example given on the last page of this form. **Use initials rather than full spelling for authors' first and middle names.** Single space all typing, but leave a space between the title block and the body of the text. Indent each paragraph three spaces. Do not indent title. Draw special symbols in black India ink.

Make title brief, clearly indicating the nature of the investigation. Then state authors' names and institutional affiliation. Omit degrees, titles, institutional appointments, street address, and zip code.

### 5. *Organization of body of abstract*

Organize the body of the abstract as follows:

A statement of the purpose of the study (preferably one sentence).

A statement of the methods used.

A summary of the results presented in sufficient detail to support the conclusions.

A statement of the conclusions reached. It is not satisfactory to state, "The results will be discussed" or "other data will be presented" unless a scientific exhibit is being submitted.

Do not use subtitles, e.g., Methods, Results.

## 6. Abbreviations

Use of standard abbreviations is required. Abbreviations used in the *Journal of Nuclear Medicine* are preferred.

**No abstract will be accepted unless the chemical identity of the radiopharmaceutical involved in the study is specified as accurately and completely as possible (for well-established radiopharmaceuticals, standard abbreviations, such as MDP, DTPA, etc., are acceptable). Abstracts in which**

**radiopharmaceuticals are identified only by code numbers will be automatically rejected.**

## 7. Superscripts and subscripts

The mass number of an element should follow the elemental abbreviation on the same line and be separated by a hyphen (Tc-99m). **DO NOT USE SUPERSCRIPTS OR SUBSCRIPTS to identify isotopes.**

## CHECK LIST

Before mailing, please check your abstracts for the following common errors:

- \_\_\_\_\_ Be sure to use a 12-pitch Courier type element or equivalent with a black ribbon.
- \_\_\_\_\_ Type title in ALL CAPS followed by a period (see example below).
- \_\_\_\_\_ Initials must PRECEDE last name. DO NOT include degrees.
- \_\_\_\_\_ Institutional affiliation, city, and abbreviated state are required. Use U.S. Post Office two-letter zip state abbreviations.
- \_\_\_\_\_ Be sure that street address, zip code, degrees, and grant support are NOT listed in abstract.
- \_\_\_\_\_ Do not begin author's name or address on a new line. Title, author's name, institution, city, and abbreviated state should run consecutively.
- \_\_\_\_\_ Do not indent title.
- \_\_\_\_\_ Leave one space between title block and text of abstract.
- \_\_\_\_\_ Begin body of abstract on a new line; indent each paragraph three spaces.
- \_\_\_\_\_ Do NOT blacken borders of abstract rectangle.
- \_\_\_\_\_ Abstract must stay within rectangular borders.
- \_\_\_\_\_ Left-hand border must be perfectly straight.
- \_\_\_\_\_ Do NOT squeeze letters on lines.
- \_\_\_\_\_ Smudges or faint typing may require retyping of the abstract.
- \_\_\_\_\_ There must be no unacceptable abbreviations (see instruction #6).
- \_\_\_\_\_ Do NOT use CAPITALS or UNDERLINE for emphasis in text of abstract.
- \_\_\_\_\_ Check accuracy of SPELLING and HYPHENATION.
- \_\_\_\_\_ Single space. There should be no space between lines of paragraphs in text of abstract.
- \_\_\_\_\_ A conclusion should be stated. A hopeful promise of additional data or discussion is not satisfactory unless a scientific exhibit is being submitted.
- \_\_\_\_\_ Be certain to designate the category and subject classification for program.
- \_\_\_\_\_ Be sure to fill in name and address of principal author.
- \_\_\_\_\_ Be sure to fill out two pressure-sensitive labels with principal author's name and address for future mailings.

## ENCLOSURES

- \_\_\_\_\_ Original abstract form.
- \_\_\_\_\_ For scientific papers, nine (9) copies (with supporting data, if submitted, stapled behind each copy).
- \_\_\_\_\_ For scientific exhibits and works-in-progress, six (6) copies (with supporting data, if submitted, stapled behind each copy).
- \_\_\_\_\_ Two pressure-sensitive labels with principal author's name and address.
- \_\_\_\_\_ One 4 x 6-inch card containing title, authors, and telephone number of principal author.
- \_\_\_\_\_ One self-addressed, stamped postcard with title and authors.

## EXAMPLE:

### IMPORTANT

All abstracts accepted for the program of the Society of Nuclear Medicine Annual Meeting will be printed directly from the typed copy of the abstract form. To ensure printing quality, the instructions must be followed completely for all abstracts. Abstracts that do not conform will be retyped by the publisher at a cost of \$50.00 to the author or will not be printed.

**TECHNETIUM-99m POLYPHOSPHATE BONE IMAGING IN LEGG-PERTHES DISEASE. J.A. Danigelis, R.L. Fisher, and M.B. Ozonoff. Newington Children's Hospital, Newington, CT.**

**This investigation was undertaken to compare the diagnostic usefulness of radionuclide bone imaging techniques to standard radiographic...**

# Information for Authors

## EDITORIAL POLICY

*The Journal of Nuclear Medicine* publishes several types of original articles in the clinical and basic sciences, case reports, technical notes, special contributions, editorials, letters to the editor, news items pertinent to the practice of the field, and articles of general medical interest. Manuscripts submitted must be original, including illustrations and tables, and not under consideration by another publication.

## MANUSCRIPT SUBMISSION

Submit all manuscripts to the Editor: Thomas P. Haynie, MD, The Journal of Nuclear Medicine, Office of Special Publications, The University of Texas M. D. Anderson Hospital, 6723 Bertner Avenue, Houston, TX 77030; (713)792-6015. Send an original and two copies of the manuscript with three sets of unmounted illustrations (glossies, no smaller than 3½"×5" or larger than 8"×10").

## COPYRIGHT

In compliance with the Copyright Revision Act of 1976, effective January 1, 1978, the following written statement must accompany all submissions: "Upon acceptance by *The Journal of Nuclear Medicine*, all copyright ownership of the article (complete title of the article in this space) is transferred to The Society of Nuclear Medicine. On behalf of any and all co-authors, I accept the responsibility for release of any part or all of the material contained within the article noted above. The undersigned stipulates that the material submitted to *The Journal of Nuclear Medicine* is original and has not been submitted to another publication for concurrent consideration." Copyright requirement does not apply to work prepared by United States government employees as part of their official duties.

## REVIEW PROCEDURE

Submitted manuscripts are reviewed for content on the basis of originality, significance, adequacy of documentation, reader interest, and composition. All manuscripts judged suitable for review by the editorial staff are reviewed by a minimum of two referees. Accepted manuscripts are subject to editorial revision for scientific accuracy and for clarity in the office of the Editor.

## MANUSCRIPT FORMAT

Begin each manuscript component on a new page in the following order: title page, abstract, text, footnotes, acknowledgments, references, tables (each on a new page), and legends for illustrations.

1. Every page must be typed double spaced, including title page, abstract, text, references, legends, acknowledgments, and footnotes, on nonerasable white bond (8½"×11").
2. Leave a 2-in. margin on all sides of typewritten pages.
3. Reference numbers in the text should be underlined and in parentheses. Do not underline in the reference list.
4. Paragraphs should begin with an indentation of at least five spaces.
5. Number all pages at the top right-hand side with names of the author(s) or title of the article.
6. Handwritten changes are not acceptable.
7. Papers must be written in English.
8. References in the text should not be made to institutions or locales except when germane to that particular article.
9. Generic names should be used. Manufacturers of instruments or radiopharmaceuticals should not be named in the manuscript unless their inclusion is absolutely essential to the content. When necessary, however, manufacturers should be identified by footnotes. Consecutive order of footnote symbols is: \*, †, ‡.

## TITLE PAGE

The title should be as short as possible, with a maximum of 72 characters including spaces. The title page should include: the first and last names of all authors; departmental and institutional affiliations of all authors; and complete mailing address, telephone number, and zip code of the author responsible for correspondence and reprints.

## ABSTRACT

Abstracts must be limited to 150 words and typed on a separate page.

## REFERENCES

References must be typed double spaced on a separate sheet and numbered consecutively as they are cited in the text. References included in a table or illustration are also numbered sequentially with those in the text. When more than three authors appear, the additional authors are listed as "et al". The Journal uses the *Index Medicus* style for references. Journal names are abbreviated according to the *List of Journals Indexed in Index Medicus*. Sample references are:

1. Burton GH, Vernon P, Seed WA: An automated quantitative analysis of ventilation-perfusion lung scintigrams. *J Nucl Med* 25:564-570, 1984
2. Freeman LM, Weissmann HS: *Nuclear Medicine Annual*, New York, Raven Press, 1980, pp 224-225
3. Odstrchel G, Hertl W, Ward FB, et al: New concepts for the assay of unbound thyroxine (FT<sup>4</sup>) and thyroxine binding globulin (TBG). In *Radioimmunoassay and Related Procedures in Medicine*, vol. 2. Vienna, IAEA, 1978, pp 369-378
4. Clouter RJ, Edwards CL, Snyder WS, eds: *Medical Radionuclides: Radiation Dose and Effects*, AEC Symposium Series 20, CONF-601212, Oak Ridge, TN, 1970
5. Dannals RF: The preparation and characterization of nitrogen-sulfur donor ligands and their technetium complexes. PhD Thesis, Johns Hopkins University, Baltimore, MD, 1981, pp 98-205
6. Snyder WS, Ford MR: A dosimetric study for the administrations of Neohydrin labeled with <sup>203</sup>Hg and <sup>197</sup>Hg. In *Health Physics Division Annual Progress Report*, Oak Ridge, TN, ORNL 4168, July 31, 1967, pp 267-273
7. Brown HS, Gray CT: New traces in old spaces. *J Nucl Med*: in press.

Numbered references to personal communications, unpublished data, manuscripts in preparation, or manuscripts submitted for publication are not acceptable.

## TABLES

Tables should be self-explanatory and supplement, not duplicate, the text. Each table must be cited in numerical order in the text and typed on a separate sheet of paper after the references. Number the tables consecutively with an arabic number following the word TABLE. The titles should be descriptive, brief, and centered in upper and lower case letters. Include explanatory material in the footnotes or the text. Place horizontal lines below the title, below column headings, and at the end of the table. Do not use vertical rules.

## ILLUSTRATIONS

Illustrations should be limited to those which clarify and augment the text. Since imaging is one of the major aspects of nuclear medicine, the selection of high-quality halftone illustrations is of paramount importance. High-contrast glossy prints should be submitted instead of film. Original line drawings and graphs are preferred for optimal reproduction and should be rendered professionally on white drawing paper in black India ink. Template or typeset lettering should be used. No hand drawings, typewritten art, or computer-generated art will be accepted. Figures of inferior quality will be returned to the author for correction and replacement. Details to be emphasized or crop marks should be indicated on a tissue overlay. Each illustration must be numbered and cited in order in the text. The following information should be typed on a gummed label and affixed to the back of each illustration: figure number, senior author, title of manuscript, and arrow indicating "top." *Authors are responsible for the costs of color reproduction.*

## LEGENDS FOR ILLUSTRATIONS

Submit a separate legend page with descriptive paragraphs for each figure, typed double spaced in numerical order with an arabic number following the word FIGURE. If illustrations have been published previously, authors are responsible for obtaining permission to reproduce them from both the original author and publisher. The source must be cited in the references and the following credit line must appear in the legend: (Reprinted by permission of Ref. X.) All permission releases must be submitted to the Editor at the time of acceptance.

## UNITS AND ABBREVIATIONS

Nomenclature, units, and abbreviations should conform to IUPAC recommendations and Systeme Internationale (SI). Chemical formulae follow the recommendations of the American Chemical Society.

**The Society of Nuclear Medicine  
33rd Annual Meeting**

**Sunday, June 22, - Wednesday, June 25, 1986**

**Washington, DC**

**Washington Convention Center  
Call for Scientific Exhibits**

**“One Picture is Worth a Thousand Words”**

The 1986 Scientific Exhibits Subcommittee welcomes the display of scientific exhibits at the 33rd Annual Meeting in Washington DC, June 22-25, 1986. A visual discipline like nuclear medicine is particularly suited for information exchange via an exhibit format which allows the viewer ample time to study, criticize and assimilate the material; exhibits can also supplement a presented paper and provide an alternative route for the author to get his message across. Exhibits will be displayed on posterboards.

A complete educational program for technologists will be offered and technologists are encouraged to submit abstracts of their work for consideration.

Scientific awards, based on scientific merit, originality, appearance, and other criteria will be presented in several categories this year. The official abstract form may be obtained from the November 1985 JNM or by calling or writing:

**The Society of Nuclear Medicine**  
Att: Abstracts  
136 Madison Avenue  
New York, NY 10016  
Tel: (212)889-0717

**Abstracts must be submitted on the official form and received (not postmarked)  
by no later than Thursday, February 20, 1986.**

**The Society of Nuclear Medicine  
33rd Annual Meeting**

**Sunday, June 22, - Wednesday, June 25, 1986**

**Washington, DC**

**Washington Convention Center  
Call for Abstracts for Scientific Program**

The 1986 Scientific Program Committee solicits the submission of abstracts from members and nonmembers of the Society of Nuclear Medicine for the 33rd Annual Meeting in Washington, DC. Abstracts accepted for the program will be published in the May issue of *The Journal of Nuclear Medicine*. Original contributions on a variety of topics related to nuclear medicine will be considered, including:

INSTRUMENTATION  
COMPUTERS AND DATA ANALYSIS  
IN VITRO RADIOASSAY  
RADIOPHARMACEUTICAL CHEMISTRY  
DOSIMETRY/RADIOBIOLOGY  
NUCLEAR MAGNETIC RESONANCE

CLINICAL SCIENCE  
APPLICATIONS:  
Bone/Joint  
Cardiovascular  
Gastroenterology  
Hematology  
Infectious Disease  
and Immunology

Neurology  
Oncology  
Pediatrics  
Pulmonary  
Renal/Electrolyte/  
Hypertension/Endocrine

Authors seeking publication for the full text of their papers are strongly encouraged to submit their work to the JNM for immediate review.

A complete educational program for technologists will be offered and technologists are encouraged to submit abstracts of their work for consideration.

The official abstract form may be obtained from the November 1985 issue of the JNM or by calling or writing:

**The Society of Nuclear Medicine**  
Att: Abstracts  
136 Madison Avenue  
New York, NY 10016  
Tel: (212)889-0717

**Deadline for receipt of abstracts is Thursday, January 23, 1986**

# About The Society

## Benefits of Membership

- **The Journal of Nuclear Medicine:** a subscription to the official publication of The Society of Nuclear Medicine and the most prominent journal in the field. Published monthly, it provides the membership with up-to-date information on current developments in nuclear medicine.
- **Annual Meetings:** discounts to scientific, clinical, and continuing education presentations, as well as commercial exhibits, to keep abreast of the latest developments.
- **Membership Directory:** distributed biannually, at no extra cost, to the entire membership.
- **Books and Monographs:** discounts on selected new topics published by the Society.
- **Audiovisuals:** discounts on slide/tape programs covering a wide variety of subjects designed for classroom use and self-instruction.
- **Pamphlets:** on a number of topics including how to present scientific papers and how to prepare scientific exhibits.
- **Awards:** presented to Society members for outstanding achievements and contributions to the field.
- **Continuing Education Credit:** for meeting courses, audiovisuals, and exhibits, approved for AMA Category 1 credit.
- **Research and Fellowship Support:** through SNM Education and Research Foundation.
- **Placement Service at Annual Meeting:** for those members seeking career opportunities in the field.
- **Effective Government Relations:** through committees and lobbying efforts.

## Organization

The Society of Nuclear Medicine (SNM) is a multi-disciplinary organization of physicians, physicists, chemists, radiopharmacists, technologists, and others interested in the diagnostic, therapeutic, and investigational use of radiopharmaceuticals. Founded in Seattle, Washington in 1954, it is the largest scientific organization dedicated to nuclear medicine.

## Objectives

- Maintain an organization supported by professionals of varied backgrounds who have a common interest in the clinical and scientific discipline of nuclear medicine;
- hold meetings and seminars to communicate new knowledge acquired and provide continuing medical education;
- advance the highest standards in the practice of nuclear medicine;
- disseminate information by means of journals, books, monographs, and audiovisuals;
- promote and maintain the highest standards of education and research.

## Membership Categories

**FULL** members are physicians or scientists with an advanced degree who have valid credentials indicating their professional interest in nuclear medicine.

**ASSOCIATE** members are scientists or technologists with a BA or BS or equivalent qualifications.

**TECHNOLOGIST** members are those who have valid credentials indicating their professional interest in the technology of nuclear medicine.

**AFFILIATE** members are persons who have an active interest in the objectives of the Society and who are not qualified for other categories of membership.

**IN-TRAINING** members are those who present a letter from the director of a training program certifying that they are in training and may be admitted to membership as an in-training Full, Associate, or Technologist member.

*See Reader Service Card to request a membership application.*

## Chapters

The Society is composed of individuals who are members of 16 regional chapters throughout the United States and Canada. Those who do not reside within this geographic area are considered to be "Members-at-Large."

## SNM Councils

To satisfy the needs of those individual disciplines within nuclear medicine, the Society has established special interest Councils that function autonomously within the Society and are open to all interested Society members: Academic, Computer, Correlative Imaging, Instrumentation, Radioassay, and Radiopharmaceutical Science.

## Technologist Section

Membership in the Technologist Section is open to any member of the Society, regardless of category, who can provide evidence of training and/or experience in nuclear medicine technology. Members receive all Section benefits, including a subscription to the *Journal of Nuclear Medicine Technology*.
