Tetalman Memorial Award—A fund, established by the family and friends of Marc Tetalman, MD, provides an annual award of \$2,500 to one young investigator (36 years or younger) in nuclear medicine for his/her accomplishments. Applications must include a curriculum vitae, a statement detailing research accomplishments and future goals, three or more letters of recommendation from established investigators, and up to three selected reprints. Send letters and applications prior to March 1, 1988 to: Ralph J. Gorten, MD, President, E&R Foundation, The Society of Nuclear Medicine, 136 Madison Ave., New York, NY 10016-6760. Selection of the successful candidate is based upon determination that he/she has attained a superior level of achievement with work that has had or is likely to have a significant impact on nuclear medicine.

Student Fellowship Grants—These grants are designed to stimulate interest among students in the United States and Canada in the field of nuclear medicine. These awards provide an opportunity to spend elective quarters and/or summers working with experts in the field. Maximum grant: \$2,000 for three months. Applications can be obtained from the office of the E&R Foundation, The Society of Nuclear Medicine, 136 Madison Ave., New York, NY 10016-6760. Applicants are advised that they must provide the information requested in the application form to be considered. The ranking of the candidate will be based on the quality and originality of the research proposal submitted. Deadline: December 15, 1987. Decisions on the candidates' rankings will be made at the Midwinter and Annual Meetings of the

Society. The number of candidates to whom awards will be made will be a function of the funds available for student fellowships.

Pilot Research Grants—These grants are intended to provide seed money to scientists working in nuclear medicine. Such proposals must be of a pilot nature in either clinical or basic research. Maximum grant: \$3,000. Applicants may obtain an application form from the office of the E&R Foundation, and are advised that all the information requested must be completed for an application to be considered, including justification of why this is a pilot research grant and how it will allow the applicant, if successful, to fully develop his/her research program. Deadline: December 15, 1987. Decisions on such grants, based on available funding, will be made at the Midwinter and Annual Meetings of the Society. Send letters and applications to Ralph J. Gorten, MD, President, E&R Foundation, The Society of Nuclear Medicine, 136 Madison Ave., New York, NY 10016-6760.

AWARDS COMMITTEE, SNM

Named Lectureships—Lectureships are available in either the Scientific Program or Continuing Education track of the June Annual Meeting. An SNM Chapter or Council may apply to the Awards Committee for a "named" lectureship (e.g., "Blumgart Lecture" sponsored by the New England Chapter). The rules are as follows: a) submit applications one year prior to the June Annual Meeting, b) sponsorship must be committed for a minimum of three years and requires that a minimum deposit of \$3,000 (approximately \$1,000/year) be placed in a specially designated fund by the sponsoring body. The sponsor must also pay for the lecturer's travel, hotel, food, and

incidental expenses at the Annual Meeting, and a suitable honorarium (e.g., minimum of \$500), and c) selection of the lecturer will be made by the Scientific Program Chairperson or designee in consultation with the sponsoring Chapter or Council.

ASCP AWARDS COMMITTEE

ASCP Research Awards Competition for Medical Students—The American Society of Clinical Pathologists (ASCP) has announced that entries for the 1988 Sheard Sanford Awards Competition will be accepted until September 1, 1987. Established in 1928, this awards program encourages undergraduate medical research in experimental, clinical, and creative morphologic pathology by recognizing outstanding efforts in these areas. U.S. and Canadian medical students are eligible to enter. To qualify, students must submit a scholarly manuscript to the ASCP, based on their research. Two candidates, whose manuscripts are judged best by the ASCP Awards Committee, are honored each year. They receive all-expense paid trips to the ASCP/CAP Sprint Meeting, which will be in Kansas City, MI in 1988; commemorative medals from Bausch and Lomb, Inc.; and certificates from the ASCP. Each candidate is limited to a single entry (published manuscripts are acceptable). Each entry must be accompanied by a letter from the pathology department chairman familiar with the student's work. The letter should describe the candidate's background and confirm that he or she was an undergraduate medical student when the research was conducted. Entry forms are available from the ASCP, Office of the Chief of Staff, 2100 W. Harrison St., Chicago, IL 60612-3798.

NCRP ROBERT D. MOSELEY, JR. FUND

The National Council on Radiation Protection and Measurements (NCRP) announces the establishment of the Robert D. Moseley, Jr. Fund for young physicians and others in radiation protection. PAUL C. AEBERSOLD AWARD FOR OUTSTANDING ACHIEVEMENT IN BASIC SCIENCE APPLIED TO NUCLEAR MEDICINE—1988

Nominations are invited for this award, which commemorates the contributions of Dr. Paul Clarence Aebersold to the applications of nuclear physics to nuclear medicine and radiation biology, as well as his contributions to The Society of Nuclear Medicine. Dr. Aebersold contributed greatly to the emergence of nuclear medicine as a

discipline by his energetic leadership in the provision of cyclotron-generated and reactor-produced radionuclides, and by his numerous publications and lectures.

In giving this award, the Society thus symbolically signifies its appreciation of the warm and vital person who became our first Honorary Member and whose enthusiastic encouragement and support contributed importantly to the formation and success of the SNM.

Nominations should be supported by the nominee's curriculum vitae and at least two letters supporting the nomination. These letters should describe briefly the contributions in basic science for which the nominee is proposed. The nominee need not be a member of The Society of Nuclear Medicine.

Please submit nominations and supporting documents to Michael J. Welch, PhD, c/o The Society of Nuclear Medicine, 136 Madison Ave., New York, NY 10016. *Deadline for nominations: December 31, 1987.*
