

Information for Authors

EDITORIAL POLICY

The Journal of Nuclear Medicine publishes several types of original articles in the clinical and basic sciences, case reports, technical notes, special contributions, editorials, letters to the editor, news items pertinent to the practice of the field, and articles of general medical interest. Manuscripts submitted must be original, including illustrations and tables, and not under consideration by another publication.

MANUSCRIPT SUBMISSION

Submit all manuscripts to the Editor: Thomas P. Haynie, MD, The Journal of Nuclear Medicine, Office of Special Publications, The University of Texas M. D. Anderson Hospital, 6723 Bertner Avenue, Houston, TX 77030; (713)792-6015. Send an original and two copies of the manuscript with three sets of unmounted illustrations (glossies, no smaller than 3½"×5" or larger than 8"×10").

COPYRIGHT

In compliance with the Copyright Revision Act of 1976, effective January 1, 1978, the following written statement must accompany all submissions: "Upon acceptance by *The Journal of Nuclear Medicine*, all copyright ownership of the article (complete title of the article in this space) is transferred to The Society of Nuclear Medicine. On behalf of any and all co-authors, I accept the responsibility for release of any part or all of the material contained within the article noted above. The undersigned stipulates that the material submitted to *The Journal of Nuclear Medicine* is original and has not been submitted to another publication for concurrent consideration." Copyright requirement does not apply to work prepared by United States government employees as part of their official duties.

REVIEW PROCEDURE

Submitted manuscripts are reviewed for content on the basis of originality, significance, adequacy of documentation, reader interest, and composition. All manuscripts judged suitable for review by the editorial staff are reviewed by a minimum of two referees. Accepted manuscripts are subject to editorial revision for scientific accuracy and for clarity in the office of the Editor.

MANUSCRIPT FORMAT

Begin each manuscript component on a new page in the following order: title page, abstract, text, footnotes, acknowledgments, references, tables (each on a new page), and legends for illustrations.

1. Every page must be typed double spaced, including title page, abstract, text, references, legends, acknowledgments, and footnotes, on nonerasable white bond (8½"×11").
2. Leave a 2-in. margin on all sides of typewritten pages.
3. Reference numbers in the text should be underlined and in parentheses. Do not underline in the reference list.
4. Paragraphs should begin with an indentation of at least five spaces.
5. Number all pages at the top right-hand side with names of the author(s) or title of the article.
6. Handwritten changes are not acceptable.
7. Papers must be written in English.
8. References in the text should not be made to institutions or locales except when germane to that particular article.
9. Generic names should be used. Manufacturers of instruments or radiopharmaceuticals should not be named in the manuscript unless their inclusion is absolutely essential to the content. When necessary, however, manufacturers should be identified by footnotes. Consecutive order of footnote symbols is: *, †, ‡.

TITLE PAGE

The title should be as short as possible, with a maximum of 72 characters including spaces. The title page should include: the first and last names of all authors; departmental and institutional affiliations of all authors; and complete mailing address, telephone number, and zip code of the author responsible for correspondence and reprints.

ABSTRACT

Abstracts must be limited to 150 words and typed on a separate page.

REFERENCES

References must be typed double spaced on a separate sheet and numbered consecutively as they are cited in the text. References included in a table or illustration are also numbered sequentially with those in the text. When more than three authors appear, the additional authors are listed as "et al". The Journal uses the *Index Medicus* style for references. Journal names are abbreviated according to the *List of Journals Indexed in Index Medicus*. Sample references are:

1. Burton GH, Vernon P, Seed WA: An automated quantitative analysis of ventilation-perfusion lung scintigrams. *J Nucl Med* 25:564-570, 1984
2. Freeman LM, Weissmann HS: *Nuclear Medicine Annual*, New York, Raven Press, 1980, pp 224-225
3. Odstrchel G, Hertl W, Ward FB, et al: New concepts for the assay of unbound thyroxine (FT⁴) and thyroxine binding globulin (TBG). In *Radioimmunoassay and Related Procedures in Medicine*, vol. 2. Vienna, IAEA, 1978, pp 369-378
4. Clouter RJ, Edwards CL, Snyder WS, eds: *Medical Radionuclides: Radiation Dose and Effects*, AEC Symposium Series 20, CONF-601212, Oak Ridge, TN, 1970
5. Dannals RF: The preparation and characterization of nitrogen-sulfur donor ligands and their technetium complexes. PhD Thesis, Johns Hopkins University, Baltimore, MD, 1981, pp 98-205
6. Snyder WS, Ford MR: A dosimetric study for the administrations of Neohydrin labeled with ²⁰³Hg and ¹⁹⁷Hg. In *Health Physics Division Annual Progress Report*, Oak Ridge, TN, ORNL 4168, July 31, 1967, pp 267-273
7. Brown HS, Gray CT: New traces in old spaces. *J Nucl Med*: in press.

Numbered references to personal communications, unpublished data, manuscripts in preparation, or manuscripts submitted for publication are not acceptable.

TABLES

Tables should be self-explanatory and supplement, not duplicate, the text. Each table must be cited in numerical order in the text and typed on a separate sheet of paper after the references. Number the tables consecutively with an arabic number following the word TABLE. The titles should be descriptive, brief, and centered in upper and lower case letters. Include explanatory material in the footnotes or the text. Place horizontal lines below the title, below column headings, and at the end of the table. Do *not* use vertical rules.

ILLUSTRATIONS

Illustrations should be limited to those which clarify and augment the text. Since imaging is one of the major aspects of nuclear medicine, the selection of high-quality halftone illustrations is of paramount importance. High-contrast glossy prints should be submitted instead of film. Original line drawings and graphs are preferred for optimal reproduction and should be rendered professionally on white drawing paper in black India ink. Template or typeset lettering should be used. No hand drawings, typewritten art, or computer-generated art will be accepted. Figures of inferior quality will be returned to the author for correction and replacement. Details to be emphasized or crop marks should be indicated on a tissue overlay. Each illustration must be numbered and cited in order in the text. The following information should be typed on a gummed label and affixed to the back of each illustration: figure number, senior author, title of manuscript, and arrow indicating "top." *Authors are responsible for the costs of color reproduction.*

LEGENDS FOR ILLUSTRATIONS

Submit a separate legend page with descriptive paragraphs for each figure, typed double spaced in numerical order with an arabic number following the word FIGURE. If illustrations have been published previously, authors are responsible for obtaining permission to reproduce them from both the original author and publisher. The source must be cited in the references and the following credit line must appear in the legend: (Reprinted by permission of Ref. X.) All permission releases must be submitted to the Editor at the time of acceptance.

UNITS AND ABBREVIATIONS

Nomenclature, units, and abbreviations should conform to IUPAC recommendations and Systeme Internationale (SI). Chemical formulae follow the recommendations of the American Chemical Society.

The Society of
Nuclear Medicine

7th Winter Meeting

Call for Abstracts

The 1988 SNM Computer & Instrumentation Councils solicit the submission of abstracts from members and nonmembers of The Society of Nuclear Medicine for the 7th Annual Winter Meeting in Phoenix, Arizona. An on-site handout of accepted abstracts will be available at the registration area. Upon presentation authors of accepted abstracts will be asked to submit a manuscript of 4 to 6 pages in length that will appear in the proceedings to be published by the American Association of Physicists in Medicine. Further information and instructions on how to prepare manuscripts will be enclosed with acceptance letters.

Title: Imaging Hardware and Software:
Validation and Quality Assurance
Date: Monday-Tuesday, February 15-16, 1988
Location: Crescent Hotel, Phoenix, Arizona
Program: Includes scientific papers and invited speakers
Sponsors: SNM Computer & Instrumentation Councils
Cosponsor: American Association of Physicists in Medicine
CME Credit: 18 hr Category 1 (approximately)

For further information contact Dr. Michael A. King, at (617) 856-4255 or the Central Office (212) 889-0717, Meetings Department.

Abstracts must be submitted on one 8½ x 11 page with 5 copies to:

**Michael A. King, PhD
Department of Nuclear Medicine
University of Massachusetts Medical Center
55 Lake Avenue North
Worcester, MA 01605**

Deadline for receipt of abstracts is Monday, November 2, 1987

The Society of
Nuclear Medicine

35th Annual Meeting

Tuesday, June 14-
Friday, June 17, 1988

San Francisco, CA
Moscone Convention
Center

Call for Scientific Exhibits "One Picture Is Worth a Thousand Words"

The 1988 Scientific Exhibits Subcommittee welcomes the display of scientific exhibits at the 35th Annual Meeting in San Francisco, June 14-17, 1988. A visual discipline like nuclear medicine is particularly suited for information exchange via an exhibit format which allows the viewer good time to study, criticize, and assimilate the material; exhibits can also supplement a presented paper and provide an alternative route for the author to get his message across. Exhibits will be displayed on posterboard, viewbox or booth.

Scientific awards, based on scientific merit, originality, appearance, and other criteria will be presented in several categories this year. Abstracts selected for presentation as scientific exhibits will be published in a supplement to the May issue of *The Journal of Nuclear Medicine*. The official abstract form may be obtained from the October 1987 *JNM* or by calling or writing:

**The Society of Nuclear Medicine
Att: Abstracts
136 Madison Avenue
New York, NY 10016-6760
Tel: (212)889-0717**

Abstracts must be submitted on the official form and received (not postmarked) by no later than Monday, January 25, 1988
