

Continuing Medical Education Primary Focus of The Society of Nuclear Medicine's 38th Annual Meeting

**THE SOCIETY OF NUCLEAR MEDICINE'S
38TH ANNUAL MEETING
JUNE 11-14, 1991
CINCINNATI, OHIO**

The 38th Annual Meeting of The Society of Nuclear Medicine will be held in Cincinnati, Ohio on Tuesday, June 11 through Friday, June 14, 1991. The Cincinnati Convention Center is the site of all of the educational activities for this meeting.

CONTINUING EDUCATION ACTIVITIES

A primary focus for every SNM Annual Meeting are the Continuing Education activities that are offered for physicians, scientists, pharmacists, and technologists.

This year we are pleased to offer 7 categorical seminars and over 39 continuing education courses. There will also be a Nuclear Medicine Review Course which is geared for the nuclear medicine resident preparing for the ABNM boards and others who wish to refresh their knowledge for practice in nuclear medicine.

All of the categorical seminars will take place on Monday, June 10 from 8:30 A.M. - 2:30 P.M. All other continuing education sessions will occur over the dates of the meeting.

The Society of Nuclear Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor continuing medical education for physicians.

The Society of Nuclear Medicine is approved by the American Council on Pharmaceutical Education as a provider of continuing pharmaceutical education.

Technologist Section courses are approved for continuing education credit by the Technologist Section of The Society of Nuclear Medicine under the criteria and guidelines established by the Council on the Continuing Education Unit.

TECHNICAL EXHIBITS

Another important component of the meeting is the technical exhibits, where the most advanced products and services for the nuclear medicine practitioner will be displayed. Attendees will have the opportunity to speak with technical experts and to see demonstrations of new equipment in an atmosphere free from the pressures of their busy practices.

Suppliers to the nuclear medicine community traditionally take advantage of the Society's Annual Meeting to showcase the innovations developed over the past year and to introduce new products. They make their greatest effort to impress and influence their most important customers—our attendees.

This year will be no different: several long-time exhibitors have increased their space, and we anticipate an even larger show, with more exhibitors than 1990's record-breaking meeting.

ADMINISTRATORS' PROGRAM

There will be a one-day session for hospital and radiologist administrators attending The Society of Nuclear Medicine's Annual Meeting. In the morning, there will be speakers and a panel on topics, such as, industry's attitude toward health care costs, the cost of setting up and running a PET facility, and the future of nuclear medicine as reflected in the manufacturers' exhibition. In the afternoon, there will be conducted tours of the exhibit hall.
