NOTICES

AWARDS COMMITTEE, SNM

Named Lectureships—Lectureships are available in either the Scientific Program or Continuing Education track of the June Annual Meeting. An SNM Chapter or Council may apply to the Awards Committee for a "named" lectureship (e.g., "Blumgart Lecture" sponsored by the New England Chapter). The rules are as follows: a) submit applications one year prior to the June Annual Meeting, b) sponsorship must be committed for a minimum of three years and requires that a minimum deposit of \$3,000 (approximately \$1,000/year) be placed in a specially designated fund by the sponsoring body. The sponsor must also pay for the lecturer's travel,

hotel, food, and incidental expenses at the Annual Meeting, and a suitable honorarium (e.g., minimum of \$500), and c) selection of the lecturer will be made by the Scientific Program Chairperson or designee in consultation with the sponsoring Chapter or Council.

SNM EDUCATION AND RESEARCH FOUNDATION

Student Fellowship Grants—These grants are designed to stimulate interest among students in the United States and Canada in the field of nuclear medicine. These awards provide an opportunity to spend elective quarters and/or summers working with experts in the field. Maximum grant: \$3,000 for three months. Applications can be obtained from the office of the E&R Foundation, The Society of Nuclear Medicine, 136 Madison Ave., New York, NY 10016-6760. Applicants are advised that they must provide the information requested in the application form to be considered. The ranking of the candidate will be based on the quality and originality of the research proposal submitted. Deadline: April 15, 1992. Decisions on the candidates' rankings will be made at the Midwinter and Annual Meetings of the Society. The number of candidates to whom awards will be made will be a function of the funds available for student fellowships.

Pilot Research Grants—These grants are intended to provide seed money to scientists working in nuclear medicine. Such proposals must be of a pilot nature in either clinical or basic research. Maximum grant: \$5,000. Applicants may obtain an application form from the office of the E&R Foundation and are advised that all the information requested must be completed for an application to be considered, including justification of why this is a pilot research grant and how it will allow the applicant, if successful, to fully develop his/her research program. Deadline: April 15, 1992. Decisions on such grants, based on available funding, will be made at the Mid-

winter and Annual Meetings of the Society. Send letters and applications to Andrew Taylor, Jr., MD, President, E&R Foundation, The Society of Nuclear Medicine, 136 Madison Ave., New York, NY 10016-6760.

Paul D. Cole Scholarship Fund Awards—Family and friends of Paul Cole and the Technologist Section of the SNM have established an annual SNM Education and Research Foundation (ERF) scholarship fund in his name. Paul Cole was president of the Technologist Section in 1988. This year the ERF is awarding up to six \$1,000 scholarships. Scholarships are being awarded for each of the three types of nuclear medicine training programs: certificate, associate, and baccalaureate. The Committee considers applications from Canadian programs approved by the Canadian Association of Medical Radiologic Technologists (CAMRT) as well as from U.S. programs approved by the Committee on Allied Health Education and Accreditation (CAHEA). Applicants can obtain application forms from the director of their nuclear medicine program. Applications must be received by May 8, 1992. They should be addressed to The Paul Cole Scholarship Fund, The Society of Nuclear Medicine, 136 Madison Avenue, New York, NY 10016-6760.
