Due to a production error, Figure 1 in the article, "Reproducibility of Repeated Measures of Carbon-11-Raclopride Binding in the Human Brain," by Volkow et al. in the April issue of the Journal (p. 611) was printed incorrectly. The corrected figure and legend are shown below.

FIGURE 1. Location, size and shape of ROIs used to quantitate $^{11}$C-raclopride in basal ganglia (upper images) and cerebellum (lower image).
