Erratum

In the article “SPECT-Guided CT for Evaluating Foci of Increased Bone Metabolism Classified as Indeterminate on SPECT in Cancer Patients,” by Römer et al. (*J Nucl Med*. 2006;47:1102–1106), Table 3 contains a transcriptional error introduced during correction of the page proofs. The data for scapula should be 0 benign and 2 indeterminate, instead of 1 benign and 0 indeterminate. We regret the error.
