

- 1S Introduction**
Johannes Czernin and Wolfgang A. Weber
- 3S The Janus Project: The Remaking of Nuclear Medicine and Radiology**
Steven M. Larson
- 10S Nuclear Medicine at a Crossroads**
Heinrich R. Schelbert
- 16S Trends in Nuclear Medicine in Developing Countries**
Maurizio Dondi, Ravi Kashyap, Diana Paez, Thomas Pascual, John Zaknun, Fernando Mut Bastos, and Yaroslav Pynda
- 24S Status of and Trends in Nuclear Medicine in the United States**
Dominique Delbeke and George M. Segall
- 29S Subjective Perception of Radiation Risk**
Lutz S. Freudenberg and Thomas Beyer
- 36S How Many PET Tracers Do We Need?**
Markus Schwaiger and Hans-Jürgen Wester
- 42S Radiopeptide Imaging and Therapy in Europe**
Valentina Ambrosini, Melpomeni Fani, Stefano Fanti, Flavio Forrer, and Helmut R. Maecke
- 56S Radiopeptide Imaging and Therapy in the United States**
Michael M. Graham and Yusuf Menda
- 64S Doing More Harm than Good? Do Systematic Reviews of PET by Health Technology Assessment Agencies Provide an Appraisal of the Evidence That Is Closer to the Truth than the Primary Data Supporting Its Use?**
Robert E. Ware and Rodney J. Hicks

- 74S Is There Evidence for Evidence-Based Medical Imaging?**
Wolfgang A. Weber
- 77S Generating Evidence for Clinical Benefit of PET/CT in Diagnosing Cancer Patients**
Werner Vach, Poul Flemming Højlund-Carlson, Oke Gerke, and Wolfgang A. Weber
- 86S Contribution of Imaging to Cancer Care Costs**
Yang Yang and Johannes Czernin
- 93S Need for Standardization of ¹⁸F-FDG PET/CT for Treatment Response Assessments**
Ronald Boellaard

EDITORIAL BOARD

Guest Editors

Johannes Czernin, MD
David Geffen School of Medicine at UCLA
Los Angeles, California

Wolfgang A. Weber, MD
University of Freiburg
Freiburg, Germany

Editor-in-Chief

Heinrich R. Schelbert, MD, PhD
David Geffen School of Medicine at UCLA
Los Angeles, California

Opinions expressed in the contributions to this supplement are solely those of the authors and do not necessarily reflect those of *The Journal of Nuclear Medicine* or the Society of Nuclear Medicine. The journal, however, invites and welcomes different opinions in order to initiate and stimulate discussion.
