

INFORMATION FOR AUTHORS

The Journal of Nuclear Medicine will publish original articles in clinical medicine, basic and clinical medical research, physics and chemistry dealing with the use of isotopes in humans, and articles on related subjects. The latter includes dosimetry, instrumentation, protection, techniques and biologic effects contributing to the use or effects of isotopes in clinical medicine or the clinical effects of ionizing radiation. Articles are accepted for publication on the condition that they are contributed exclusively to this journal. Authors will please note that they alone are responsible for the *TECHNICAL* accuracy of their manuscripts.

MANUSCRIPTS must be typed doubled or triple spaced, the latter being preferable, and with at least a one-inch margin on each side of a standard size page. The original with one carbon copy must be provided.

TABLES must have captions and be numbered consecutively in Arabic numbers.

ILLUSTRATIONS should be in black ink on hard white paper with all lettering of sufficient size and clarity to permit reduction. Each illustration must be identified by a label pasted to the back indicating its number, the author's name and an abbreviated title of the article. The top of the illustration must be clearly indicated. Illustrations must have descriptive legends grouped on a separate sheet (double spaced). Authors will be charged \$7.00 apiece for every illustration over four.

REFERENCES must be cited in the text by number in parentheses in order of appearance. A consecutive list according to reference numbers must be submitted on a separate page, double spaced. Literature references must be cited in the following order: name of author, title of article, name of periodical, with volume, page, month (day of month, if weekly) and year. Book references must be cited in the following order: author's name, name of book, editor's name (if any), city of publication, name of publisher and year of publication.

Unused manuscripts will be returned by regular mail. Used manuscripts are not returned. Used illustrations are returned after the article is published.

THE SOCIETY OF NUCLEAR MEDICINE

14th ANNUAL MEETING
JUNE 20-23, 1967, SEATTLE, WASHINGTON

ANNOUNCEMENT AND CALL FOR ABSTRACTS

SCIENTIFIC PROGRAM

The Committee on Scientific Program welcomes the submission of abstracts of original contributions dealing with the following subjects:

1. BASIC SCIENCE—having relation to nuclear medicine.
2. CLINICAL INVESTIGATION in nuclear medicine.
3. CLINICAL NUCLEAR MEDICINE—new and original observations.
4. TECHNICAL DEVELOPMENTS AND NEW INSTRUMENTATION.

We solicit papers dealing with biophysical, biochemical, physical, physiological and radiobiological aspects of nuclear medicine, as well as papers concerned with diagnostic and therapeutic nuclear medicine.

Rules for submitting abstracts:

1. ORIGINAL AND FIVE COPIES TO:

Joseph F. Ross, M.D.
Chairman, Program Committee, Society of Nuclear Medicine
Department of Medicine
U.C.L.A. School of Medicine
Los Angeles, California 90024

2. 300 WORDS, submitted in such form that the abstract may be published in the final program and in the Journal of Nuclear Medicine.
3. Give title of paper and name(s) of author(s) and institution(s) as you wish them to appear in the program. *Underline* the name of the author who will present the paper.
4. Indicate address to which correspondence should be directed.
5. Interested investigators and teachers need not be members of the Society to participate.

* * * * *

The editors of the Journal of Nuclear Medicine welcome the submission of complete manuscripts to be considered for publication.

DEADLINE: February 1, 1967
