TECHNICAL AFFILIATES PROGRAM PLANNED

As it did last year, the Society of Nuclear Medicine plans to hold a Technical Affiliates session at the annual meeting in June. The afternoon of Thursday, June 27, 1968, from 1:30 to 5:00 pm has been set aside for the program, and the Committee on Technical Affiliates is now asking technical affiliates to send in abstracts of 12-minute papers for this meeting. Please see page xvi in the front of this issue for details of how to prepare abstracts and to whom to submit them. The Society hopes that many technical affiliates will participate, as they did last year, to make this a stimulating session which will continue on an annual basis.

PROGRAM FOR UNIV. OF MICHIGAN COURSE

On March 4-6, 1968, the annual Postgraduate Nuclear Medicine Course will be held at the University Hospital in Ann Arbor, Michigan.

Monday, March 4

- 9:00 am Introduction. Dr. W. H. Beierwaltes.
- 9:30 am In vitro T³ and T⁴ test of thyroid function. Dr. J. C. Sisson.
- 10:45 am Radioimmuno assays. Dr. J. C. Floyd.
- 1:30 pm Bone scanning. Dr. E. A. Jones.
- 2:30 pm New developments in bone scanning. Dr. W. H. Beierwaltes.
- 3:15 pm Parathyroid scanning. Dr. W. DiGiulio.
- 4:00 pm Hyperparathyroidism. Dr. R. Johnson.

Tuesday, March 5

- 9:00 am Comparison of utility of scanners and cameras—1968. Dr. F. D. Thomas.
- 10:15 am Computer facilities. Drs. F. D. Thomas and G. F. Knoll.
- 11:15 am Some practical aspects of radiation health physics. Mr. J. E. Carey, Jr.
- 1:30 pm Brain scanning. Dr. L. M. Lieberman.
- 2:30 pm Brain scanning: vascular disease. Dr. W. DiGiulio.
- 3:15 pm Liver scanning. Dr. F. D. Thomas.
- 4:15 pm Nuclear techniques in diagnosis in gastroenterology. Dr. W. H. Beierwaltes.

Wednesday, March 6

- 9:00 am Renogram and renoscan in "screening" for hypertensive renovascular disease. W. H. Beierwaltes and V. M. Varma.
- 10:30 am Perfusion and inhalation lung scanning. Dr. A. E. Jones.
- 11:20 am Human use of radiopharmaceuticals: regulation. Dr. E. A. Carr, Jr.
- 1:30 pm Salivary gland scanning. Dr. G. Gates.
- 2:00 pm Thyroid scanning: ^{99m}Tc and ¹³¹I. Dr. F. D. Thomas.
- 2:30 pm Thyroid scanning in thyroid disease. Dr. W. H. Beierwaltes.
- 3:30 pm Thyroid carcinoma. Dr. J. Matovinovic.
- 4:15 pm Hyperthyroidism treatment. Dr. W. H. Beierwaltes.

PHYSICIST—Masters plus experience in Clinical Isotope Lab. Responsible for running the lab of large teaching hospital under direction of Endocrinologist/Internist. Opportunity to participate in research program. Liberal employee benefits include free tuition to N.Y.U. Please send resume to Miss M. Kerans, Professional Placement Coordinator, Personnel Dept. B-2, N.Y.U. Medical Center, 568 First Ave., New York, N.Y. 10016.

ISOTOPE TECHNOLOGIST — To assume technical responsibility for the isotope section of a well-equipped radiology department. Requirements include A.R.R.T. certification, completion of a course of study in nuclear medicine, and at least two years of appropriate experience. Salary open, depending on individual qualifications. Attractive fringe benefits. Apply: Personnel Director, Halifax District Hospital, P.O. Box 1990, Daytona Beach, Fla.
