

TEACHING SESSIONS

- THEME:** Evaluation and Usefulness of Radioisotope Methods in Clinical Medicine and clinical findings. Each panel member will discuss the value and limitations of radioisotopic methods in relation to his specific areas of interest. In addition, the sessions should stimulate vigorous discussions on the optimal approach to diagnosis of specific symptom complexes. Technical discussions will be limited to a presentation of the best method for any given procedure; if controversial, however, the technical approach will be elaborated upon. Each participant will present a 5-min resume on the aspects of using these radioisotopes in patient care. This will be followed by a 1-hr discussion with questions and answers from the audience and each panel participant will be allotted 3-5 min to summarize.
- TIME:** Thursday, June 27, 4:00-5:20 pm;
Friday, Saturday, Sunday,
June 28-30, 7:30-8:50 am
- PLACE:** Khorassan Room
Chase Club
Starlight Roof
- OBJECTIVES: A SESSIONS—EVALUATION PANELS**
The objective of the evaluation panels is to critically review in open forum and discussion the value of isotope tests and procedures in the light of the over-all development of diagnostic methods in medicine today. The panels are designed to critically assess the current state of the art, emphasizing the role of radioisotopic procedures and their relation to other diagnostic modalities
- B & C SESSIONS—REVIEW**
To provide a current review of standard isotope procedures for the practitioner and the technician in the field of nuclear medicine.
These are a continuation of basic teaching programs following the format of the previous meeting. The B sessions are primarily oriented to organ systems while the C sessions discuss the recent technical advances.

CLINICAL SCAN CONFERENCE

A conference for the members and guests of the society interested in clinical nuclear medicine. Problem cases will be presented to a panel for discussion. Audience participation will be invited.

A PROBLEM CONFERENCE: Cases Presented to the Experts

- PLACE:** Khorassan Room
- TIME:** Friday, June 28, 8:00-9:30 pm
- MODERATOR:** David Kuhl, Univ. of Pennsylvania, Philadelphia, Pa.
- ARRANGEMENTS:** Donald R. Korst, Russell C. Briggs, Univ. of Wisconsin Hospitals, Madison, Wis.
- PANEL:** Malcolm Powell, Univ. of California, San Francisco, Calif.
William Beierwaltes, Univ. of Michigan, Ann Arbor, Mich.
Alexander Gottschalk, Univ. of Chicago, Chicago, Ill.
John McAfee, Syracuse Univ., Syracuse, N.Y.
Henry N. Wagner, Jr., Johns Hopkins Hospital, Baltimore, Md.
E. James Potchen, Washington University, St. Louis, Mo.
