

Supplemental Figure 1. Examples of [¹⁸F]FDG PET/CT findings in ACC showing phenotypic heterogeneity

A-B: right ACC (arrow), C-D: right ACC (arrow), E-F: left ACC (arrow) with vena cava extension (arrowhead), G-H: right ACC (arrow) with vena cava extension (arrowhead) and lung metastases. A, C, E, G: attenuation corrected CT/[¹⁸F]FDG, B, D, F, H: [¹⁸F]FDG MIP images).
