

Supplemental Table 1. Predicted group membership table for discriminant analysis based on BP input data alone (all groups).

	Group	Predicted Group membership				Total
		Control	MSA	PD		
Original	Control	6	2	2	10	
	MSA	2	5	2	9	
	PD	2	0	8	10	
Cross-Validated	Control	6	2	2	10	
	MSA	2	5	2	9	
	PD	2	0	8	10	

Supplemental Table 2. Predicted group membership table for discriminant analysis

based on BP input data alone (only PD versus MSA).

	Group	Predicted		Group
		MSA	PD	membership
Original	MSA	6	3	9
	PD	0	10	10
Cross-Validated	MSA	6	3	9
	PD	0	10	10

Supplemental Figure 1. Canonical discriminant cluster plot using RAC BP together with influx R_1 data. Group centroid points are indicated in purple and ellipsoids are drawn to illustrate the cluster extent.
