

Supplemental Figure 1

Representative Logan plots from the analyzed brain regions in APP23 mouse brain at 18 months.

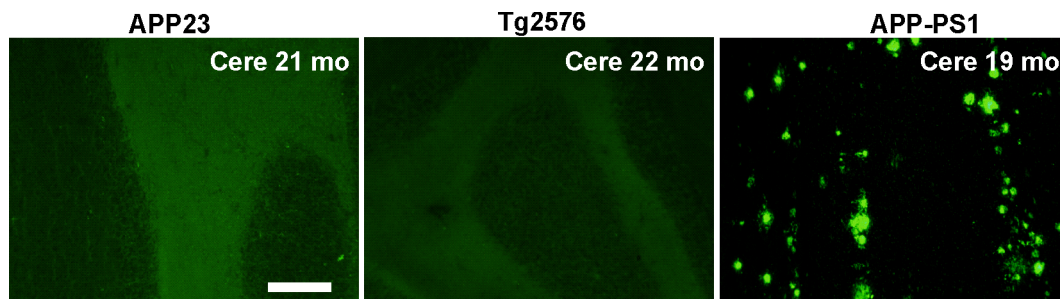

Supplemental Figure 2

Ex vivo [^{11}C]PIB autoradiograms from cerebellar sections of APP23, Tg2576 and APP_{swe}-PS1_{dE9} mice and wild type control mice brain.

Supplemental Figure 3

Thioflavin-S staining of cerebellar sections from APP23, Tg2576, APP_{swe}-PS1_{dE9} brain.

Scale bar: 200 μ m.

Supplemental Figure 4

Anti-A β_{N3pE} –immunostaining in cortical sections of APP23, Tg2576 and APP_{swe}-PS1_{dE9} mice.
