

SUPPLEMENTAL FIGURE 1. Correlation coefficient matrix showing numeric, color-coded, and size-coded Spearman rank correlation coefficients for BPU SUV_{max} on ¹⁸F-FDG PET/CT, BPE, FGT, and age for the grouped analysis for both interpreters and reassessment of BPU SUV_{max} by interpreter 1. Correlations ranged from moderate to strong and are marked in blue if positive and red if negative (cf. legend on the right).
